---------------------------	---	---------------------------

**Name of Offeror or Contractor:** BRETON INDUSTRIES INC

SUPPLEMENTAL INFORMATION

1. The purpose of this modification is to allow the contractor to deviate from the technical data package and use 1" webbing per MIL-W-4088 in lieu of 1" osnanburg binding. Inadvertantly, language allowing the contractor to deviate was not included in the basic contract; however, the unit price of \$95.00 signifies the Government's acceptance of the contractor's exception pricing. Deviation was previously approved by engineering on purchase order DAAE07-02-P-S162.

2. Both parties mutually agree that any and all demands, requirments and/or conditions requested by either party are hereby set forth in this modification and are entirely satisfied.
