part numbers

9. The M3 CROP (produced by Summa Technology Inc.) has the addition of storage provisions for the Hook Arm Extension (HAE) and the Trailer Interface Kit (TIK) and the relocation of the storage of the Basic Issue Items (BII) tools for easier access. These changes impact the following components:

a. Basic Issue Items (BII)

Items stored on the M3 CROP:

Bar, Pin,(CAGE 19200), part number 12468755

Hammer, Wooden Handle, Soft Faced (CAGE 49181), part number KT171714

Socket, 2-1/4" 3/4 in Drive (CAGE 8Z799), part number H1272

Socket, Socket Wrench, 3/4 in. Drive (CAGE 77053) part number 9649

Extension, Hook Arm (CAGE OBJH4) part number 12468660

Items stored on the PLS Trailer

Ramp, Loading Vehicle (CAGE 07GE7) part number 2-33901

The storage of the web strap assemblies are unchanged.

b. Changes To The CROP As A Result Of BII Storage Relocation

1. Relocated components in modified Front Blocker Assembly Storage Area - The driver side Front Blocker Assembly has been modified by adding a rectangular box section with a small door to provide enough room for the storage of the Pin Bar, Soft Faced Wooden Handle Hammer, and the -inch Drive Socket Wrench Socket.

Name of Offeror or Contractor:

2. Relocated components on the A-Frame:

a. Relocated 3/4 inch Drive 2-1/4 inch Socket on the A-frame Support Beam (PN12468819) - A pin was welded in the center of the support beam with a hole drilled through to allow the socket to be stored and secured through the use of a hitch pin. The socket itself has been treated with a black oxide coating in lieu of the chrome finish on previous sockets provided.

b. Storage provisions for the Summa Loading Ramps - Provisions shall be added to the top of the A-frame to secure the new Summa Loading Ramps to the CROP during mission and storage operations.

3. Relocated Hook Arm Extension at the rear of the CROP under the deck - In order for this storage location to work, the center rear stake beam assembly (PN 12468874) was eliminated. A steel plate was welded in place, which allowed enough room to slide the HAE into the area between the steel plate and the deck of the CROP. A hole drilled into the steel plate will allow the HAE pin to be used to hold the HAE in place during transport.

4. Component Change On The PLS Trailer - A new Summa TIK (2 Loading Ramps and 2 Hanger Brackets) has been created to replace the TIK previously provided by Hyundai.

In the field, the soldier will have to either:

a. Remove the old Hyundai brackets and loading ramps from the trailer and replace them with the new Summa Brackets and ramps because the Hyundai and Summa hardware are not interchangeable (Summa ramps cannot be used with Hyundai brackets, etc.) without modification to the Hyundai hanger bracket.

- or -

b. Modify the Hyundai brackets to enable it's use with the new Summa loading ramps. Material will have to be removed by grinding the top support plate of the Hyundai ramps so that it measures 1 inch by 3 inches by 0.25 inch and repainting the bare metal. Removing this material provides enough clearance between the support flange on the new Summa ramp and the Hyundai bracket to allow proper mounting and pinning of the ramp (text and artwork required).

c. Additional Changes To The CROP

1. The D-ring pocket openings were lengthened to allow the snap hook to drop in directly and attach forward and aft to the D-ring anchor bar.

2. Summa CROPs will be painted CARC black with CARC green stenciling. A new stencil shall be added to the side rails of the CROP, indicating the center of gravity.

M3A1 Change Package

The M3A1 CROP Change package will contain the following new material:

1. Chapter 10- M3A1 CROP DS Maintenance (Note: Information not supplied will be provided at the Start of Work Meeting):

Para 10-6. Possible revision to include wear criteria (maximum of 10 pages - text only).

Contract Requirements

a. Contractor shall also prepare a Printers Running Sheet, List Of Effected Pages (LOEP) and Authentication Page for the subject manual. The Contractor shall provide an Excel version of the running sheet in addition to the draft and final draft paper versions.

b. The Contractor shall prepare digital files in Adobe Acrobat 5.0 pdf format, or better with intelligent text. Intelligent is defined as text that can be selected, copied, linked on, etc. The text must not be bit-mapped type graphic data. The Contractor shall deliver this information to the Government on Compact Disc (CD). a. The PDEP hardcopy will be used for Validation/Verification (Val/Ver) of the technical information and will contain draft text and art. Five (5) copies of this PDEP will be delivered to TACOM. Due Date: 60 Days After Contract (DAC) award (See CDRL A001).

b. The Draft Equipment Publication (DEP) hardcopy. The DEP will be a post Val/Ver copy showing that comments from the Val/Ver have been appropriately captured and will also include any engineering change proposals provided to the Contractor prior to the configuration cut-off date established by TACOM. Five (5) copies of this draft will be delivered to TACOM. Due Date: 15 days after completion of Val/Ver effort (See CDRL A001).

c. Final Draft Equipment Publication (FDEP) shall be submitted in hard copy and compact disc . The FDEP shall consist of digital files in Adobe Acrobat 5.0 pdf format, or better with intelligent text. The Contractor shall deliver this information to the Government on Compact Disc (CD) which will constitute the FDEP delivery. Due Date: 15 days after receipt of TACOM DEP comments (see CDRL A001).

(2) The offeror shall provide its DUNS or, if applicable, its DUNS+4 number with its offer, which will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) The Contractor is responsible for the accuracy and completeness of the data within the CCR, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to confirm on an annual basis that its information in the CCR database is accurate and complete.

(b) Per Section 326 of Public Law 102-484, the Department of Defense cannot award any contract that directly or indirectly requires the use of CIODS unless (i) the use of such substances is essential for contract performance, and (ii) no suitable substitute for the CIODS currently is available.

(c) Before releasing this solicitation, we conducted a best effort review of its technical requirements, standards, and specifications, to see if any contain requirements for CIODS. If we identified any such CIODS requirements, they are identified in subparagraph (d)(1) below.

(1) In addition, to help TACOM meet its obligations under Public Law 102-484, we ask you for input. If you have any special knowledge about any CIODS requirements that our specifications impose, whether directly or indirectly, or if you know about potential substitutes for any CIODS required by our specifications, we would appreciate the information.

(2) It should be understood that you are not obligated to give us the information requested by this provision, and that we cannot provide any separate or special payment for doing so. (2) Further, in our review of the specification or technical data package in this solicitation, we--

found any indirect requirements to use any CIODS. (Offerors who check have above are asked to identify, on the following lines, (i) the specifications and standards for this acquisition that indirectly require the use of CIODS; (ii) the CIODS indirectly required by each listed specification and standard; and (iii) whether any substitutes are known to be available for the listed CIODS.)

(e) Offerors who check have in paragraphs (d)(1) or (2) above also are requested to say whether substitutes are known to be available for any of the CIODS. If an available substitute would perform less well than the CIODS would perform, please let us know what the technical trade-offs are to the extent that you have such information available.

Name of Offeror or Contractor:

(f) If you checked have in paragraphs (d)(1) or (2) above, and also indicated that substitutes for CIODS are available, we need to know whether use of the suggested substitute would have any effect on your proposed price. If your proposal price for compliance with our current specifications differs from what your price would be if the substitute for CIODS were required, we ask that you let us know what the difference would be in Section B of this solicitation, by giving us two prices or offers:

--One price/offer, labeled with CIODS, will be the offered price in the event that CIODS are used.

--The second price/offer, labeled without CIODS, will be the price offered if substitutes for CIODS are used, and will specify the substitute(s) being proposed for use.

(g) Section 326 of Public Law 102-484 reflects the national and international interest in minimizing the use of CIODS. For this reason, TACOM reserves the right to (i) determine the suitability of substitutes for CIODS when such potential substitutes are available; and (ii) change the specification in any contract awarded as a result of this solicitation, to require the use of suitable substitutes in lieu of CIODS.

L-11 52.215-4404 DATA AND COMMUNICATIONS SUBMITTED TO THE GOVERNMENT ELECTRONICALLY MAY/2002

(a) The Government often employs contractors as system administrators to operate and maintain Government computer systems. These systems include local area networks, web sites, databases, other electronic records, e-mail accounts, other electronic data transfer mechanisms and computer software. The employees of these contracted system administrators sign nondisclosure agreements obligating them not to reveal information contained in files, documents, computers or systems that they administer. However, unless such information is protected in some way, contracted system administrators do have the ability to access such information.

(b) Potential contractors as well as any other parties are thus advised to take steps needed to prevent access by contracted system administrators to information submitted electronically to the Government. Absent such steps, it is assumed that contracted system administrators are permitted the capability to access the data. The access will be limited to that which is necessary for the contract system administrator to perform its duties for the Government. The access shall be subject to the condition that third party information is not to be revealed by the contracted system administrator.

(1) Files readable using these Office XP or Microsoft* 97 Office Products (TACOM can currently read OFFICE 97* and lower.): Word, Excel, Powerpoint, or Access. Before preparing your offer in any other electronic format, please e-mail the buyer identified in Block 10 of the solicitation cover sheet (Government Standard Form 33), with e-mail copy-furnished to amsta-idq@tacom.army.mil, to obtain a decision as to the format's acceptability. This e-mail must be received by the buyer not later than ten calendar days before the closing date. Failure to e-mail the buyer within this timeframe to seek an alternate format's acceptability may result in rejection of your offer. All alternate methods must be at no cost to the Government.

NOTE (Compression): The above formats may be submitted in compressed form using Winzip*. Self-extracting files are not acceptable. Check with the buyer before using any product other than Winzip for file compression.

NOTE (Hyperlinks): Documents [submitted using any of the above formats] must not contain active links (hyperlinks) to any other documents that are not contained in the proposal. This includes links to live Internet web sites or web pages. All linked information must be contained within your electronic offer and be accessible offline.

NOTE (Macros): The virus scanning software used by our email systems cannot always distinguish a macro from a virus. Therefore, sending a macro embedded in an email message or an email attachment may cause the email offer to be quarantined. In that event subparagraphs (f) and (g) apply.

(b) Acceptable media: You must submit your offer via 100 megabyte or 250 megabyte Zip*-disk, or 3 1/2 inch disk, or 650 megabyte CD ROM, E-mail, or datafax. Identify the software application, and version, that you used to create each file submitted. The word "datafax" used in this clause means "facsimilie" as defined at FAR 52.215-5.

(1) 100 OR 250 MEGABYTE ZIP*-DISK, 3 1/2 INCH DISK, OR 650 MEGABYTE CD ROM via U.S. Mail or other carrier. Envelopes containing disks must be labeled per FAR 52.215-1(c), found within the provision, "Instructions to Offerors--Competitive Acquisition", listed in Section L. Your attention is also called to the entirety of that provision--all contained therein is applicable to paperless electronic offers. In the event of multiple submitted offers, place each offer/submission on its own disk(s)(one offer can comprise multiple disks). You must also submit only one offer/submission per envelope. Notwithstanding language in Block 9 of

Name of Offeror or Contractor:

the SF 33 cover sheet of this solicitation that may state otherwise, submit ONLY ONE (1) of each disk (no additional copies required). If you will be sending your CD or ZIP disks by any method other than US Postal Service, see the Section L provision 52.215-4003 (TACOM), entitled "Handcarried Offers," for delivery instructions.

THE SUBJECT LINE OF THE E-MAIL MUST READ: "OFFER--[solicitation number], [name of Company/offeror], CLOSES [closing date]". Maximum size of each e-mail message shall be three and one-half (3.5) megabytes. Use the file compression described in the NOTE in paragraph (a) above. You may use multiple e-mail messages for each offer/submission, however, you must annotate the subject lines as described above for each message, and number them in this manner: "Message 1 of 3, 2 of 3, 3 of 3".

(3) DATAFAX. Faxed offers MUST BE SENT TO TACOM'S NETWORK FAX SERVER ON 1-586-574-5527. DO NOT FAX OFFERS TO THE BUYER. SIMILARLY, DO NOT ADDRESS THE FAX TO THE BUYER. YOU MUST ADDRESS THE FAX TO THE ATTENTION OF offers@tacom.army.mil AS THIS IS THE LOCATION WHERE YOUR FAX MUST BE RECEIVED. THE COVER PAGE OF THE FAX MUST CLEARLY INDICATE THAT THE FAX SHOULD BE SENT TO offers@tacom.army.mil.

Paper faxes are not acceptable. Transmit only one offer for each datafax transaction. Clearly identify the offer as such on your fax cover page or via your PC, include your company's name, and state the proper internal TACOM address: offers@tacom.army.mil. Offerors may send a fax using a personal computer or standalone fax machine, but it must be sent to the above number. If you use a standalone fax machine, you won't receive a confirmation of receipt. See paragraph (e) below for the minimum requirements of your offer. Maximum size of datafax offers is three and one-half megabytes (3.5MB), the same limitation as that for e-mail offers. For your datafax, use the same subject line as that for e-mails as indicated above: "OFFER--[solicitation number], [name of your Company/offeror], CLOSES [closing date]".

Unless specifically instructed otherwise in this solicitation, select only one medium by which to transmit each offer. For instance, do not submit an offer via 100 or 250 megabyte Zip*-disk AND e-mail.

(c) Lateness rules for submitted disks, e-mail, or datafax submissions are outlined in FAR 52.215-1, "Instructions to Offerors--Competitive Acquisition", listed in Section L of this solicitation. Pay particular attention to paragraph (c)(3) of that clause as it relates to the timing of e-mail or datafax submissions.

(d) Security Note: If you choose to password-protect access to your offer, you must provide the password to TACOM at least ten days prior to submitting the protected file. Clearly label the disc/CD ROM as described in paragraph (b)(1) above, adding the name and title of the signer authorizing your company, your company name, and then sign the LABEL itself. Datafaxed offers also must include a signed SF 33 cover sheet. E-mailed offers must also include a signed SF 33 cover sheet that can be either faxed or scanned. If faxed to the TACOM Network Fax Server (1-586-574-5527), you must annotate that it is being submitted together with your e-mailed offer. If scanned, attach it to your e-mail offer (or first e-mail message if you are sending multiple e-mails due to length).

(2) All applicable fill-in provisions from Sections A, B, F, and K of this solicitation. You may find Word versions of Section K provisions requiring your fill-in on our TACOM Business Opportunities webpage (<http://contracting.tacom.army.mil/mastersol/sectionk.htm>). You can fill them in and attach them to your offer. See the solicitation for which provisions are required. Also, Section E provisions filled in (if applicable): Inspection Point: Origin, TACOM clause 52.246-4028. All applicable fill-ins must be completed and submitted by the offeror.
