will be determined late. Proposal, as the term is used here, means ALL volumes and/or parts of the proposal.

Note: There is no "expected" or "target" length of time for proposal submission; size and content may be factors, therefore offerors are strongly cautioned to submit their proposals allowing adequate time for submission.

Solicitations may remain posted on the AFSI Open Solicitation Web page after the solicitation closes. Even though the system will allow you to submit a proposal after the closing date/time, your proposal will be considered late and may not be considered for award. If you are responding to a Request for Proposal, your offer will not be considered if it is submitted after the closing date and time unless one of the exceptions is met at FAR 15.208(b). If you are responding to a Request for Quotation, your quote may be considered if it is received after the closing date, and it will not unduly delay award.

(f) Any award issued as a result of this solicitation will be distributed electronically. Awards posted on ProcNet represent complete OFFICIAL copies of contract awards and will include the awarded unit price. This is the notice required by Executive Order 12600 (June 23, 1987) of our intention to release unit prices in response to any request under the Freedom of Information Act (FOIA), 5 USC 552. Unit price is defined as the contract price per unit or item purchased as it appears in Section B of the contract and is NOT referring to nor does it include Cost or Pricing data/information. If you object to such release, and you intend to submit an offer, notify the contracting officer in writing prior to the closing date identified in this solicitation and include the rationale for your objection consistent with the provisions of FOIA. A release determination will be made based on rationale given.

(g) If you have questions or need help using ProcNet, call our E-commerce Contracting Help Desk at (586) 282-7059, or send an email to usarmy.detroit.acc.mbx.wrn-web-page-request@mail.mil. Destruction of this technical data shall be accomplished by: shredding, pulping, burning, or melting any physical copies of the TDP and/or deletion or removal of downloaded TDP files from computer drives and electronic devices, and any copies of those files.

e. If technical data is otherwise restricted, select Request Explicit Access. This will generate an email to the FBO system administrator at Army Contract Command - Warren (DTA) with all the information needed for them to grant you access. FBO will subsequently automatically generate an email stating when you have permission to view or download TDP items. Allow 2 3 working days to complete this FBO-TDP access/approval process through the FBO system.

f. If multiple individuals in your company need access to the Technical Data Package (TDP) for a solicitation and an explicit access request is required, each individual MUST submit an explicit access request to be granted approval to view the TDP. Those same individuals MUST be registered in Federal Business Opportunities (FBO). Any individuals no longer with the company should be deleted. Questions related to registration in FBO should be directed to <https://www.fbo.gov/index> The FBO helpdesk phone number is (866) 606-8820. Vendors are responsible for placing correct information in FBO.

g. It is strongly suggested that you submit the explicit access request and provide the buyer with the completed Use and Non-Disclosure Agreement at the same time if the solicitation requires both to gain access to view the TDP.

H.2 The Department of Defense (DOD) and the U.S. Army are enhancing customer identification security as part of an overall program to provide a stronger and more secure authentication process for accessing DOD information systems. As of 1 September 2011, the TACOM LCMC CIO/G-6 will meet this DOD mandate by requiring the use of a digital certificate for industry partners requiring access to the PM SKOT Warranty and Replacement website. The External Certification Authority (ECA) program supports the issuance of DOD-approved certificates to industry partners and other external entities and organizations that conduct business with the DOD. The ECA program is designed to provide a mechanism for these entities to securely communicate with the DOD and authenticate to DOD Information Systems. Additional information can be found at: <http://iase.disa.mil/pki/eca/>. If you currently have a Common Access Card, you will be able to access the PM SKOT Warranty and Replacement website without purchasing a certificate through the ECA program.

The ECA Certificates can be purchased through three sources: VeriSign, Operational Research Consultants (ORC), or Identrust. The following URLs provide additional information and links to purchase sources:

(3) ___ Are, ___ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ___ Have, ___ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

15	52.245-4002 (TACOM)	ACQUISITION OF NEW FACILITIES, SPECIAL TEST EQUIPMENT, OR SPECIAL TOOLING	MAR/1996
----	------------------------	---	----------

(a) It is not the intent of the Government to acquire, or to have acquired for its account, any facilities, special test equipment, or special tooling as those terms are defined below. The Government shall under no circumstances reimburse the offeror for the cost of any new facilities, special test equipment, or special tooling as a separate item. An offeror may, however, amortize the cost of any such facilities, special test equipment, or special tooling it may require in the submitted price of the items. Such facilities, special test equipment or special tooling shall not be subject to Government option rights to take title to the same except as specified in the DEFAULT, TERMINATION FOR THE CONVENIENCE OF THE GOVERNMENT, and/or PROGRESS PAYMENT clauses of this contract.

(b) As used in this solicitation/contract, FACILITIES means industrial property (other than material, special tooling, military property, and special test equipment) for production, maintenance, research, development, or test, including real property and rights in it, buildings, structures, improvements, and plant equipment.

(c) As used in this solicitation/contract, SPECIAL TEST EQUIPMENT means either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in the performance of the contract. Such testing units comprise electrical, electronic, hydraulic, pneumatic, mechanical, or other items or assemblies of equipment, that are mechanically, electrically, or electronically interconnected so as to become a new functional entity, causing the individual item or items to become interdependent and essential in the performance of special purpose testing in the development or production of particular supplies or services. L.1 Proposal Instructions and Content

Proposals shall be submitted in accordance with the requirements of the request for proposal (RFP) and the instructions set forth below. Proposals should be specific, complete and state clearly how you will meet the requirements of the solicitation. Sufficient substantiation should be submitted to permit the Government to determine that your offer meets all the requirements of the solicitation. Each section of the proposal shall be separated into three volumes to facilitate review by the Government. The proposal shall include a volume for each factor of the evaluation, and a volume titled Certification & Representations (see below). Offers shall be submitted via the Army Single Face to Industry Website in accordance with FAR provision 52.204-4016 of the solicitation.

L.1.2 Period for Acceptance of Offers

This paragraph serves as an addendum that modifies paragraph (c) of FAR 52.212-1 titled Instructions to Offerors Commercial Items. Paragraph (c) is modified to say that the offeror agrees to hold the prices in its offer firm for 90 calendar days from the date specified for receipt of offers in the solicitation.

L.1.3 Award Without Discussions

In accordance with FAR 52.212-1, the Government intends to evaluate proposals and award a contract without discussions with offerors. The offerors initial proposal should contain the offerors best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. The burden of providing thorough and complete information remains with the offerors. The Government is not obligated to make another request for the required information nor does the Government assume the duty to search for data to cure problems it finds in proposals.

L.1.4 Berry Amendment Notice

Hand or measuring tools listed in Federal supply classifications 51 and 52 are subject to the Berry Amendment and shall be produced in the United States.

In accordance with DFARS PGI 225.7002-1(b), the term produced in the United States with respect to hand or measuring tools is defined as follows:

(1) The hand or measuring tool was assembled in the United States out of components, or otherwise made from raw materials into the finished product that is to be provided to the Government.

(2) If a hand or measuring tool was assembled in a country other than the United States, then disassembled and reassembled in the United States, the hand or measuring tool was not produced in the United States.

(3) The requirement to buy hand or measuring tools produced in the United States does not impose any restriction on the source of the components of the hand or measuring tools. This is unlike the Berry Amendment restriction on clothing (see 225.7002-1(a) (2)), which explicitly requires domestic source for the materials and components of clothing (other than unusual components such as sensors or electronics), as well as the additional separate restrictions on various types of fibers and fabrics that might be components of the clothing.

L.1.5 Electronic Copies

Offerors must submit electronic copies and any supplemental information (such as spreadsheets, backup data, and technical information) using the following:

(a) Files in Microsoft Office 2007 compatible format: Word, Excel, or PowerPoint. Spreadsheets must be sent in a file format that includes all formulae, macro and format information. Print image is not acceptable.

(b) Files in Adobe PDF (Portable Document Format). Scanners should be set to 200 dots per inch.

(c) Files in HTML (Hypertext Markup Language). HTML documents must not contain active links to live Internet sites or pages. All linked information must be contained within the electronic offer and be accessible offline.

(d) All files must be compiled in a logical and electronically searchable format.

L.1.6 Given the volume of data and information to be submitted by Offerors in response to this solicitation, and the inherent limitations of server bandwidth, Offerors may be required to submit proposals in multiple uploads; because of the expedited evaluation schedule, it is critical that all Offerors carefully and completely identify the parts and attachments of the proposal so that the Government may quickly and easily distribute the proposal volumes. It is important to note that up to five files can be uploaded at one time. The combined size of the 5 files cannot exceed 10Mb. Break your attachments into smaller files or use the upload utility multiple times if your files exceed the 10Mb size limit. Filenames must not contain single quotes, spaces, pound or percent signs. In the ASFI Frequently Asked Questions section, there are Vendor User Guides that provide detailed information.

L.2. Volume I/Certification & Representations

In this volume Offerors shall include the following:

L.2.1 A scanned image of a signed copy of the SF 1449 cover page signed by a person authorized to sign proposals on behalf of the Offeror. Fill-in blocks on the SF 1449 include blocks 12, 17, 30a, 30b, and 30c.

L.2.2 One copy of this solicitation with all fill-ins completed. Offerors must include a completed copy of the provision at FAR 52.212-

Name of Offeror or Contractor:

3, Alternate I, Offeror Representations and Certifications-Commercial Items and DFARS 252.212-7000 Representations and Certifications-Commercial Items. ORCA certifications need not be separately submitted.

L.2.3 For other than US Small Business concerns, a Small Business Subcontracting Plan in accordance with FAR 52.219-9.

SECTION M EVALUATION FACTORS FOR AWARD

M.1 Basis of Award

52.212-2 Evaluation COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price, and other factors considered. Award will be made to the lowest priced technically acceptable proposal.

M.1.1 Contractor Responsibility and Eligibility for Award

The Government will award a contract to the offeror that:

- (a) Represents the best value to the Government resulting from selection of the technically acceptable proposal with the lowest evaluated price,
- (b) Submits a proposal that meets all the material requirements of this solicitation, and
- (c) Meets all the responsibility criteria at FAR 9.104.

M.2 Technical Factor

The Technical Factor includes the following four (4) SubFactors:

- SubFactor 1: Tool Case Style
- SubFactor 2: Tool Load
- SubFactor 3: Tool Layout
- SubFactor 4: Market Acceptance

Proposals will be evaluated on an Acceptable/Unacceptable basis. Proposals will be evaluated as follows:

Acceptable: Proposal clearly meets the minimum requirements of the solicitation.

Unacceptable: Proposal does not clearly meet the minimum requirements of the solicitation.

This assessment will be performed using the information submitted in response to Section L.3 of the solicitation, as well as, other technical information supplied by the offeror to support conformance of the supplies to the requirements (e.g. catalog

CONTINUATION SHEET	Reference No. of Document Being Continued PIIN/SIIN W56HZV-11-R-0005 MOD/AMD	Page 72 of 72
---------------------------	---	----------------------

Name of Offeror or Contractor:

descriptions/marketing literature, technical literature, written responses, etc.) listed in Table L.3.

M.2.1 To be rated Acceptable under the Technical Factor and Technical SubFactors, every individual requirement listed under each SubFactor must be assessed as Acceptable. The offerors proposal rated Unacceptable under any individual requirement listed under any of the SubFactors, regardless of an Acceptable rating of other requirements under that SubFactor, will be assessed as Unacceptable both under (a) that specific SubFactor and (b) the Technical Factor, as a whole. Proposals assessed as Unacceptable will not be eligible for award.

M.2.2 If the offeror fails to provide all the information specified in Section L.3 of the solicitation, it may render its proposal ineligible for award. The offeror will not be awarded extra credit for exceeding the technical requirements outlined in the DFP and Section L.3 of the solicitation.

M.3 Past Performance Factor

Proposals will be evaluated on an Acceptable/Unacceptable basis. Proposals will be evaluated as follows:

Acceptable: Based on the offerors performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offerors performance record is unknown. (See note below.)

Unacceptable: Based on the offerors performance record, the Government has no reasonable expectation that the offeror will be able to successfully perform the required effort.

Note: In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance. Therefore, the offeror shall be determined to have unknown past performance and shall be considered acceptable.

M.3.1 This assessment will be performed using the information submitted in response to Section L.4 of the solicitation, as well as, but not limited to, PPIRS or other databases; interviews with Program Managers and Contracting Officers; the Defense Contract Management Agency listed in Section L.4 of the solicitation.

M.3.2 The past performance evaluation will consider two aspects: whether the offerors past performance from the last three years of the issuance of the solicitation is relevant or not relevant to the effort to be acquired and how well the offeror performed on the contracts. Proposals assessed as Unacceptable will not be eligible for award.

M.4 Price Factor

M.4.1 The Price Factor evaluation will consider the total evaluated price. The Price Factor will be assessed based upon total evaluated price to the Government to include an assessment of price reasonableness.

M.4.2 Reasonableness exists when the offered price does not exceed what would be incurred by a prudent person in the conduct of competitive business. The Government may reject a proposal which is not reasonable.

M.4.3 If the offeror fails to provide all the information specified in Section L.5 of the solicitation, it may render its proposal ineligible for award.

a. The Government will evaluate offers based on the Total Evaluated Price. The Total Evaluated Price is the sum of the Total Evaluated CLIN price for CLINs 0021-0025, plus any Product Verification Test costs for CLIN 0011, Replacement Item costs for CLINs 0031-0035, Repair Parts Manual costs for CLIN 0041/A001 and Tool Load Images costs for CLIN 0041/B001. Transportation costs must be incorporated in the proposed unit prices and are not a separately evaluated price related factor.

b. For CLIN 0021-0025 with range pricing, the Government will calculate an evaluated CLIN price for CLINs 0021-0025 by multiplying the proposed unit prices for each range and Ordering Year by their respective weight (see Attachment 0002) and maximum quantity, and summing their totals. The weight associated with each range represents the likelihood that an order, if placed, would be placed within that range. The Total Evaluated CLIN price is the sum of the evaluated CLIN price for all of the Ordering Years.

If an offeror fails to submit unit prices for all Quantity Ranges, Ordering Years, CLINs, and ELINs then its proposal may be considered unacceptable and the Government may reject the proposal.
