New Look for Procurement Network

The Acquisition Center's Procurement Network provides an overview of the TACOM Contracting mission. That mission, along with our organization, is growing. Last fall we welcomed three new organizations - Sierra Army Depot, Watervliet Arsenal, and Rock Island Arsenal - each with their own contracting offices.

In response to this change PROCNET has grown to include links to each office's Business Opportunities web page.

We decided it was also time to change the look of PROCNET's Home Page to graphically represent the diversity of the Acquisition Center.

Each location has a link to a Business Opportunities web page where you will find open solicitations and contract awards, market surveys, and technical data packages. Some sites also publish draft solicitations, other requests for information, and projected future buys on their Business Opportunities

page. You may also find an Acquisition Information web page which includes information to help you do business with TACOM.

In addition to the seven TACOM Business Opportunities links, we also link to government-wide opportunities located at FedBizOpps, DoD-wide opportunities at DoDBus Opps, and the Army Single Face to Industry.

We hope you like our new look. Please send your E-mail comments to acqcenweb@tacom.army.mil.

PROCNET TACOM Warren

Business Opportunities

Acquisition Information

Procnet is divided into two major web pages, Business Opportunities and Acquisition Information. On the Business Opportunities page you will find:

- Open Solicitations
- Master Solicitation
- Draft Solicitations
- Closed Solicitations
- Awarded Contracts, Orders, Mods
- Market Surveys
- Future and Potential Buys
- Qualified Suppliers List.....

The following is a list of some of the topics included on the Acquisition Information page:

- Master Solicitation – Simplified Acq
- Small Business Information
- Engineering Changes
- Freedom of Information Act
- TACOM Competition Advocate
- TACOM Ombudsperson
- Central Contractor Registration
- Directions to TACOM Warren
- Many external acquisition links.....

New PROCNET User Guide

Along with changing the appearance of PROCNET, we have made some additions that we hope will make our web site easier for you to use.

We added an expanded User Guide, Quick Reference Guide, and Site Index. These tools provide you with several options for locating the information you need. To find, go to <http://contracting.tacom.army.mil/userguide.htm>

At the 2003 APBI we previewed the new PROCNET Home Page, a new Open Solicitation page with search capability, and a new Vendor Registration page. Send us an e-mail message if you saw us there and let us know how we're doing. Or use our on-line survey at <http://contracting.tacom.army.mil/cfdata/survey1/procnet.cfm>

FedBizOpps

VENDORS

PROCNET Links to FedBizOpps

FedBizOpps.gov is the single government point-of-entry (GPE) for Federal government procurement opportunities over \$25,000. Government buyers are able to publicize their business opportunities by posting information directly to FedBizOpps via the Internet. Through one portal - FedBizOpps (FBO) - commercial vendors seeking Federal markets for their products and services can search, monitor and retrieve opportunities solicited by the entire Federal contracting community.
