

Table L1: TK-2111A Top Tray Style Tool Case or Equal Requirements							
Requirement number	Title	Requirement	Responses				
			Written response	Drawings / figures	Technical literature	Catalog description	Additional information
3.4.2	Tool case design	The design of the ruggedized tool case shall provide a mobile tool case configuration with a top lid that opens to expose a tool bay and a front lid that opens to expose drawers. When the tool case is open and sitting on a level work surface, with the top lid open and the front lid open, neither lid shall prevent access to any item or drawer of the tool case.	The TK-2111A tool kit Acme Corporate proposes to furnish is provided with Pelican Part No. 0450.	Pelican_0450_case.jpg		Paragraph_3-4-2_Pelican_0450_catalog.pdf
