

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. Contract ID Code
Fixed Price Level of Effort
Page 1 Of 22

2. Amendment/Modification No. 03
3. Effective Date 2013SEP25
4. Requisition/Purchase Req No. SEE SCHEDULE
5. Project No. (If applicable)

6. Issued By Code W56HZV
U.S. ARMY CONTRACTING COMMAND
MONTY MCCLELLAND
WARREN, MICHIGAN 48397-5000
HTTP://CONTRACTING.TACOM.ARMY.MIL
EMAIL: MONTY.MCCLELLAND@US.ARMY.MIL
7. Administered By (If other than Item 6) Code S0512A
DCMA LOS ANGELES
16111 PLUMMER STREET
BUILDING: 10; FLOOR: 2
SEPULVEDA CA 91343

8. Name And Address Of Contractor (No., Street, City, County, State and Zip Code)
CONTROL POINT CORPORATION
110 CASTILIAN DR STE 200
GOLETA, CA 93117-3028
9A. Amendment Of Solicitation No.
9B. Dated (See Item 11)
10A. Modification Of Contract/Order No.
W56HZV-09-D-0147/0002
10B. Dated (See Item 13)
2012SEP26
Code 1CJM7 Facility Code

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in item 14. The hour and date specified for receipt of Offers
 is extended, is not extended.
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods:
(a) By completing items 8 and 15, and returning _____ copies of the amendments; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. **FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER.** If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. Accounting And Appropriation Data (If required)

ACRN: AC NET INCREASE: \$2,999,812.69

**13. THIS ITEM ONLY APPLIES TO MODIFICATIONS OF CONTRACTS/ORDERS
It Modifies The Contract/Order No. As Described In Item 14.**

A. This Change Order is Issued Pursuant To: _____ The Changes Set Forth In Item 14 Are Made In _____
The Contract/Order No. In Item 10A.
 B. The Above Numbered Contract/Order Is Modified To Reflect The Administrative Changes (such as changes in paying office, appropriation data, etc.) Set Forth In Item 14, Pursuant To The Authority of FAR 43.103(b).
 C. This Supplemental Agreement Is Entered Into Pursuant To Authority Of: MUTUAL AGREEMENT BETWEEN PARTIES
 D. Other (Specify type of modification and authority)

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the Issuing Office.

14. Description Of Amendment/Modification (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

SEE SECOND PAGE FOR DESCRIPTION

Except as provided herein, all terms and conditions of the document referenced in item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. Name And Title Of Signer (Type or print)

*** End of Narrative A0000 ***

1. The purposes of this modification 03 to Task Order 0002 are--

- (A) to update Functional Technical Representative from Daniel Malinowski to Michael Satchfield;
- (B) to extend the Period of Performance (PoP) for Technical Instruction (TI) 001 by 90 days;
- (C) to award labor hours, material and ODC's, and travel during Option Year 1 in order to fund the following three Technical Instructions: TI-005, TI-006, & TI-007, which are hereby issued pursuant to Paragraphs H.1.1.2 and H.1.1.3 of the Task Order;
- (D) to update Scope of Work to reflect updated and revised PoP for TI-001 and add Government Furnished Equipment (GFE); and
- (E) to correct grammatical errors and make administrative changes within Contract Data Requirements List.

2. As a result of this modification, the following parts of the contract have been revised:

A. Section A.4 Functional Technical Representative updated name from Daniel Malinowski to Michael Satchfield and email from daniel.p.malinowski.civ@mail.mil to michael.j.satchfield.civ@mail.mil.

B. Section B updated as follows:

- (i) Section B.1.1 Base Year updated to reflect 15 month PoP for TI-001.
- (ii) Section B.1.2 OPTION YEAR 1 - updated to include Technical Instructions 005, 006, & 007 description and SubCLIN information.
- (iii) Section B.2.2.1 LABOR - OPTION YEAR 1 - hours awarded to date and hours remaining updated to reflect addition of TI-005, TI-006, & TI-007 hours.
- (iii) Section B.2.2.2 TOTAL COSTS - OPTION YEAR 1 - labor hours and travel amount obligated funds updated to reflect addition of TI-005, TI-006, & TI-007 hours and dollar amounts.
- (iv) CLINs 1001AA, 1001BA, & 1001CA PoP extended 90 days from 27-SEP-2013 to 27-DEC-2013.
- (v) Section B - CLINs 2005AA, 2005BA, 2005CA, 2006AA, 2006CA, 2007AA, 2007BA, & 2007CA added and funded as follows:

LABOR CLIN	ODC CLIN	TRAVEL CLIN
2005AA - \$2,103,466.77	2005BA - \$ 997.70	2005CA - \$18,949.82
2006AA - \$ 721,428.51	2006BA - NONE*	2006CA - \$ 3,253.53
2007AA - \$ 130,041.93	2007BA - \$7,195.57	2007CA - \$14,478.86

* Note: there is no subCLIN 2006BA created in this modification 03 to Task Order 0002 because there are no Other Direct Costs being funded on TI-006.

C. Section C updated as follows:

- (i) Section C.1.3 Period of Performance updated
- FROM
- | | |
|-------------------------------|--|
| Base Year | September 28, 2012 to September 27, 2013 |
| TO | |
| Base Year TI 001 | September 28, 2012 to December 27, 2013 |
| Base Year TIs 002, 003, & 004 | September 28, 2012 to September 27, 2013 |

CONTINUATION SHEET**Reference No. of Document Being Continued****Page 3 of 22**

PIIN/SIIN W56HZV-09-D-0147/0002

MOD/AMD 03

Name of Offeror or Contractor: CONTROL POINT CORPORATION

(ii) Part 2: Government Furnished Equipment updated to include corrected bar codes on 3 pieces of GFE and the addition of 2 more GFE computers.

D. Section H - H.1.2.1 updated to reflect the number of hours awarded to date (32,328.2) and the remaining number of hours available (59,191.8).

E. Contract Data Requirements List updated as follows:

(i) A012 updated Title FROM 'A012 listed as Software Test Specification (SPS)' TO 'Software Product Specification (SPS)'.

(ii) A022 changes as follows:

(a) updated Title FROM 'Quality System Plan' TO 'Quality Assurance Plan'.

(b) updated Authority FROM 'DI-QCIC-81379' TO 'DI-QCIC-81794'.

3. As a result of this modification the total contract amount has increased by \$2,999,812.69 from \$5,760,355.00 to \$8,760,167.69.

4. All other terms and conditions remain unchanged and in full force and effect.

*** END OF NARRATIVE A0004 ***

A.1 AWARD OF TASK ORDER

This Task Order 0002 is awarded in response to the proposal submitted by Control Point Corporation (CPC) on Task Order Request for Proposal (TORFP) 0013 for TARDEC Omnibus Services.

The purpose of this Task Order 0002 is to provide 91,520 hours of effort during the base year, on a Firm-Fixed-Price Level of Effort basis in order to perform the services described in Section C. For this entire task order (Base Year and Option Years 1 and 2), all rates are established and shall be billed in accordance with CPC's proposal dated 16 May 2012.

This Task Order is awarded under the existing terms and conditions of CPC's IDIQ Contract W56HZV-09-D-0147.

A.2 TASK ORDER NUMBERING SYSTEM

The following numbering system will apply to this Task Order:

Task Order: 0002

TARDEC Task Order: 0019

Task Order Request For Proposal (TORFP): 0013

A.3 PERIOD OF PERFORMANCE

The period of performance for the Base Year of this Task Order shall not exceed fifteen (15) months from the date of Task Order award. The Task Order includes two (2) options, Option Years 1 and 2, which may be exercised IAW Sections H.1.2 and H.1.3, respectively; if exercised, the period of performance for each option shall not exceed twelve (12) months.

A.4 FUNCTIONAL TECHNICAL REPRESENTATIVE (FTR)

The certified FTR for this Task Order is:

Michael Satchfield

Email: michael.j.satchfield.civ@mail.mil

Phone: 586.282.1855

SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

PART 1: GENERAL INFORMATION

C.1.0 Scope

C.1.1 Introduction

C.1.1.1 This is a performance-based scope of work to provide technical support services to the Electronic Maintenance System Program Management Office (EMS PMO). The four areas of support are:

C.1.1.1.1 Sustainment and enhancement of the Electronic Maintenance System (EMS) Next Generation (NG) suite of software.

C.1.1.1.2 Technical support and training to the EMS NG community.

C.1.1.1.3 Research, analysis, and reporting in the areas of software development strategies, publication processes, and diagnostics.

C.1.1.1.4 Business program management.

C.1.1.2 The EMS NG product suite has passed the development stage and is now in sustainment. The sustainment of EMS consists of system maintenance and enhancements. Maintenance consists of modifying the software to support System Trouble Reports (STRs), new hardware, new operating systems and new publication/interface and maintenance standards (Attachment 0001). Enhancement or Change Requests (CRs) consist of modifying the software to improve its performance or behavior or expand its capability to support new vehicle systems.

C.1.2 Background

C.1.2.1 EMS NG is a suite of web-based software modules used to develop, manage, publish, and deploy Department of Army (DA) authenticated Technical Manuals (TMs), Electronic Technical Manuals (ETMs) or Interactive Electronic Technical Manuals (IETMs). The EMS NG encompasses three basic environments: content development, content management, and deployed applications.

C.1.2.2 The content development environment provides an on-line editor to create and edit eXtensible Markup Language (XML) documents. It provides services for importing existing data sets including text, graphics, and multimedia objects. It also provides conversion services to translate instances from older Army Document Type Definitions (DTDs) to current standards. This environment is accessed through a web portal. Anyone with the proper credentials and Internet connection can reach this environment.

C.1.2.3 The Content Management System (CMS) provides a repository for all content mentioned above and tools to manage and share this content. It also provides a workflow to structure the publication development process from initial authoring through to review, comments, approval, authentication, and publishing. The Publisher within the CMS provides the ability to publish technical manuals and related logistics support products to paper (in the form of Portable Document Format (PDF)) and/or to screen (for example, IETMs) from a single data source. The Publisher, a server-based application, can also run stand-alone outside of the CMS.

C.1.2.4 The deployed application consists of three parts: the technical content, including EMS NG IETMs and related products, the EMS NG viewer, and the Autonomous Diagnostic Manager (ADM). The technical content is the actual technical information specifically created for a particular piece of equipment ready for screen display. The viewer is an enhanced web browser that supports intrusive diagnostics, advanced navigation and searching, an integrated knowledge model, maintenance session data collection, interfacing to other logistics information systems, and automated web updating. The ADM is an application with numerous diagnostic bus interfaces, and includes public and proprietary tests supporting the major subsystems of Army and United States Marine Corps (USMC) ground vehicles. The ADM serves the EMS NG viewer by performing the authored tests as requested by the IETM. The ADM is a standalone application that can provide interface and test services requested by any client application.

C.1.2.5 An IETM is an application for maintaining vehicles at all levels of maintenance within the Department of Defense (DoD). An IETM contains all the technical information to diagnose and repair a vehicle system. It works with test equipment and interfaces with vehicle data buses and sensors to interactively test and diagnose the system and to isolate faults. Once the fault(s) has been isolated, the IETM links the user to appropriate repair procedures and repair parts information, provides tools for ordering the needed parts, and collects the relevant maintenance session data. The IETM has an integrated knowledge model which guides the user throughout the troubleshooting process, keeping track of test evidence and test results. Other logistics products related to the IETMs include Logistics Management Information (LMI), training products, related maintenance data, Repair Parts, Special Tool (RPSTL) data, support equipment data and packaging, handling, and transportation data.

C.1.3 Period of Performance

Base Year TI-001 September 28, 2012 to December 27, 2013

Base Year TI-002, TI-003, & TI-004 September 28, 2012 to September 27, 2013

Option Year 1 September 28, 2013 to September 27, 2014

Option Year 2 September 28, 2014 to September 27, 2015

C.2.1 General Information

C.2.1.1 Contractor Quality Assurance

C.2.1.1.1 The Contractor shall develop and maintain an effective plan, IAW CDRL A022, for a Quality Assurance (QA) Program to ensure services are performed in accordance with this PWS. Within the QA Plan, the Contractor shall develop and implement procedures within the QA Program to identify, prevent, and ensure non-recurrence of defective services. The Contractor's QA Program is the means of assuring the work complies with the requirements of this PWS. The QA Plan shall include documented quality control processes and inspections in accordance with American National Standards Institute (ANSI), International Organization for Standardization (ISO), or American Society for Quality Control (ASQC) Q9000 and Q9001, or equivalent.

C.2.1.1.2 The Contractor is required to check and test that all software releases, service packs, documentation, and source/object code deliveries to ensure they are complete, accurate, and function properly. The Contractor shall keep records of those QA actions. The Government shall conduct periodic progress reviews of work in accordance with the inspection procedures described in the Product Support Plan (PSP), Attachment 0002. The progress reviews will include reviews of QA records as requested by the Government.

C.2.1.1.3 The Government will inspect the quality of the draft delivery of all software update releases IAW CDRL A019 and in accordance with its User Acceptance Test (UAT) Plan, Attachment 0003. The Contractor and Government shall collaborate 30 days prior to UAT on scripted items to be tested for the release. The Government evaluates the software by installing and inspecting/testing the software via User Acceptance Tests (UATs). Problems found through this quality check shall be corrected by the Contractor prior to final delivery per UAT Plan.

C.2.1.2 Government Quality Assurance

The Government shall evaluate the Contractor's performance under this task order in accordance with the Quality Assurance Surveillance Plan (QASP), Attachment 0004. This plan is primarily focused on what the Government will do to ensure that the Contractor has performed in accordance with the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the minimum acceptable defect rate(s).

C.2.1.3 Contractor Risk Management Plan

The Contractor shall provide a Risk Management Plan (RMP) IAW CDRL A021.

C.2.1.4 Contractor Software Development

The Contractor shall submit a Software Development Plan (SDP) IAW CDRL A001.

C.2.1.5 Non-Disclosure Agreement

C.2.1.5.1 The Contractor agrees to use any information relative to this task order exclusively in the performance of this task order and to take the necessary steps in accordance with Government regulations to prevent disclosure of such information to any party outside the Government or Government designated support contractors possessing appropriate proprietary agreements.

C.2.1.5.2 The Contractor agrees to train their personnel who will be handling sensitive information and obtain the necessary non-disclosure agreements. Contractor personnel shall not engage in any activity where sensitive information is used for the profit of any party other than the owners of the information. Before beginning any work, the Contractor employees shall sign non-disclosure agreements and forward them to the Procuring Contracting Officer (PCO). The Contractor shall restrict access to sensitive/proprietary information to the minimum number of employees necessary to perform the work.

C.2.1.6 Recognized Government Holidays

The days listed below are legal holidays. The Government will not be available for meetings or accept any deliverables on these days.

- New Year's Day
- Martin Luther King Day
- Presidents' Day
- Memorial Day
- Independence Day
- Labor Day
- Columbus Day
- Veteran's Day
- Thanksgiving Day
- Christmas Day

C.2.1.7 Hours of Operations/Place of Performance

The Contractor is responsible for conducting services between the business hours of 7:30 a.m. to 4:00 p.m. Eastern Standard Time (EST), Monday through Friday. The Contractor must maintain at all times an adequate workforce for the uninterrupted performance of all tasks defined within this performance work statement when the Government facility is not closed for the above reasons. The Place of Performance is at the Contractor's facility.

C.2.1.8 Travel

Contractor personnel may be required to travel to perform this task order. Prior to travel, the Contractor shall provide written certification to the EMS PM/FTR, that funds are available on the travel CLIN to complete the proposed trip. The Government Functional Technical Representative (FTR) must authorize all travel in advance. Authorized travel shall be payable as a direct cost. Vouchers for reimbursement of travel must be included with the monthly invoice and approved by the FTR prior to payment. There will be no reimbursement for local travel in and around Contractor's place of performance (within a 50-mile radius). The Contractor shall use the lowest available airfare and accommodations available during normal business hours. Reimbursement for lodging and incidental expenses will be considered reasonable and allowable to the extent the costs do not exceed the rates allowed by the Joint Travel Regulation (JTR).

C.2.1.9 Functional Technical Representative (FTR)

For this task order, the PCO has designated a Functional Technical Representative (FTR) in accordance with DFARS 201.602-2. The FTR performs specific technical functions designated by the PCO. After this task order has been awarded, the Contractor will receive a copy of the FTR appointment letter specifying the FTR and extent of the FTR's authority to act on behalf of the Contracting Officer. The FTR is not authorized to make any commitments or changes that will affect price, quantity, delivery, or any other term or condition of this task order.

C.2.2 Security Requirements

C.2.2.1 All information or data developed under this task order shall be marked and handled as being authorized for Public Release unless otherwise noted.

C.2.2.1 Required clearance:

C.2.2.1.1 All contract personnel who are expected to work on-site at TARDEC or access Government computer systems must have a satisfactory National Agency Check with Inquiries (NACI). Evidence of a satisfactory NACI shall be given to the FTR seven days prior to expected site or computer access. It is preferred that all on-site contract personnel be citizens of the United States. The contractor's tasks may necessitate access to information designated as Unclassified Critical Program Information (UCPI). Access to UCPI is strictly limited to U.S. citizens only.

C.2.2.1.2 The Contractor shall not release any information or data to third parties without the prior written approval of the Procuring Contracting Officer.

C.2.2.2 Data Rights

C.2.2.2.1 The Government shall have unlimited rights in all data delivered under this task order, and in all data first produced in the performance of this task order in accordance with the FAR 52.227-14.

C.2.2.2.2 Unlimited rights means the rights of the Government to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, in any manner and for any purpose, and to have or permit others to do so.

C.2.2.2.3 Data is defined as recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term does not include information incidental to task order administration, such as financial, administrative, cost, or pricing, or management information.

C.2.2.2.4 Computer software means computer programs that comprise a series of instructions, rules, routines, or statements, regardless of the media in which recorded, that allow or cause a computer to perform a specific operation or series of operations; and recorded information comprising source code listings, design details, algorithms, processes, flow charts, formulas, and related material that would enable the computer program to be produced, created, or compiled.

Rights concerning commercial computer software delivered under this task order will follow stipulations stated in the FAR 52.227-19, \~Commercial Computer Software License.

PART 2: GOVERNMENT FURNISHED INFORMATION (GFI), EQUIPMENT (E)

The Government has the unilateral right to add GFI/GFE as required under this task order. The Contractor is responsible for managing and securing all GFI/GFE under this task order.

Specific Government Furnished Equipment to be provided is/are as follows:

<u>NSN</u>	<u>Nomenclature</u>	<u>Serial Number</u>	<u>Price</u>	<u>Location</u>

PART 3: SPECIFIC TASKS**C.3.0 Requirements****C.3.1 Basic Services**

The basic services required under this task order include technical support, maintenance and enhancement of the EMS product suite (Attachment 0005), configuration management, business program management, training, documentation and reporting on research and analysis.

C.3.1.1 Task Area 1: Technical Support of the EMS Program

The Contractor shall provide technical support to the EMS NG community including the EMS Program Management Office (EMS PMO). Outside of the EMS PMO, there are three fundamental environments where users employ EMS NG products: development, management and deployed. The development environment is anywhere users are authoring ETMs/IETMs using the EMS NG Developer's Tool Kit (DTK). The management environment is anywhere a user is using the EMS NG Content Management System (CMS). The deployed environment is anywhere a user is using the Viewer or ADM. Specific tasks include:

C.3.1.1.1 Adhering to a pre-scheduled life-cycle software development release.

C.3.1.1.2 Providing remote and on-site technical consulting and training to current and potential EMS community.

C.3.1.1.3 Providing and maintaining a user web-based interactive database for submitting, updating, and tracking all EMS issues and user incident reports.

C.3.1.1.4 Providing research, analysis, and reporting on a variety of subjects, including mark-up language, diagnostics, system, and application interfaces and technical manual publication and maintenance standards (Attachment 0001).

C.3.1.2 Task Area 2: Maintenance and Enhancement of the EMS NG Product Suite

Maintenance consists of modifying the EMS NG product suite as defined in the EMS NG Product Suite Description document (Attachment 0005) to resolve System Trouble Reports (STRs) or to support new computer hardware, new operating systems, or new specifications, standards or regulations. Enhancements or Change Requests (CRs) consist of modifying the software to improve its performance or behavior or expand its capability to support new component interfaces or new vehicle systems. This effort includes the following tasks (detailed descriptions of these tasks/procedures are found in the PSP (Attachment 0002)):

C.3.1.2.1 Analyzing and prioritizing STRs.

C.3.1.2.2 Analyzing and estimating the magnitude of CRs identified by the EMS PMO.

C.3.1.2.3 Attending scheduled In Process Reviews (IPRs).

C.3.1.2.4 Scheduling the design, development, and testing of approved CRs and STRs in accordance with the software lifecycle development schedule described in the PSP.

C.3.1.2.5 Developing and testing software code.

Name of Offeror or Contractor: CONTROL POINT CORPORATION

C.3.1.2.6 Meeting all information assurance requirements (DoD Information Assurance Certification and Accreditation Process (DIACAP), Certificate of Networthiness (CoNs), network security, Navy Marine Corps Intranet (NMCI) etc.)

C.3.1.2.7 Preparing for and supporting the User Acceptance Test (UAT).

C.3.1.2.8 Supporting integrated testing with Product Directorate for Test, Diagnostic, and Measurement Equipment (PD-TMDE) and the Tools Group.

C.3.1.2.9 Delivering the final release including source code, object code and all associated documentation IAW CDRL A018.

C.3.1.2.10 Developing and delivering software Service Packs (SPs) (interim releases).

C.3.1.3 Task Area 3: Configuration Management

The Contractor shall provide Configuration Management (CM) for all versions of the EMS NG software. This shall include control of any changes made to the baseline software, version control, maintenance of previous versions, as well as new version configuration. Specific tasks include:

C.3.1.3.1 Providing a description of the new software version of each product with each release, IAW CDRL A013.

C.3.1.3.2 Maintaining a CM plan with associated documentation and schedule and making available for Government review.

C.3.1.4 Task Area 4: Business Program Management

C.3.1.4.1 The Contractor shall maintain business management records pertaining to each release and any other project under this task order. Details are provided in the PSP, Attachment 0002. Specific tasks include:

C.3.1.4.1.1 Monthly reporting of performance and costs, projected hours and dollars to be used for a new release prior to starting the development of the new release IAW CDRLs A015 and A017.

C.3.1.4.1.2 Requirements for Program Management Reviews (PMRs), In Process Reviews (IPRs), and Configuration Control Board (CCB) meetings will be discussed during Start of Work Meeting.

C.3.1.5 Task Area 5: Training

The Contractor shall develop and maintain training courses in support of the EMS NG product suite. Specific tasks include:

C.3.1.5.1 Tailoring all training to a particular topic. Target audiences may include:

C.3.1.5.1.1 IETM field users

C.3.1.5.1.2 Content developers: TACOM, Original Equipment Manufacturers (OEMs), OEM subcontractors

C.3.1.5.1.3 Content reviewers: Publication managers, safety, Program Managers (PMs), Logistics Support Activity (LOGSA), Army Publishing Directorate (APD)

C.3.1.5.1.4 System/network administrators: TACOM, Directorate Of Information Management (DOIM), OEMs, subcontractors

C.3.1.5.2 Training at the Contractor's location, at TACOM, or at a remote location.

C.3.1.5.3 Providing a course syllabus, formal lesson plan, overview slides along with hands-on exercises, IAW CDRL A023.

C.3.1.5.4 Some training deliverables may require Sharable Content Object Reference Model (SCORM) compliance.

C.3.1.5.5 Providing EMS IETM Viewer and ADM training. This training would cover all major functions within the IETM viewer in conjunction with the ADM, including navigation, diagnostics, data collection, and administration.

C.3.1.5.6 Providing ETM/IETM development training, including authoring training, applied XML, use of RPSTL, Maintenance Allocation Chart (MAC) and Hot Spot editors, conversion scripts, and diagnostic track development.

C.3.1.5.7 Providing CMS training. This instruction may cover any or all of the applications and functions within the CMS including ETM/IETM development, content sharing, content management, workflow processes and publishing options.

C.3.1.5.8 Preparing and hosting an annual EMS Developers Workshop, including an EMS program overview, software demonstrations, and topical workshops relating to TM/IETM development, management, and publishing.

C.3.1.6 Task Area 6: Documentation

CONTINUATION SHEET	Reference No. of Document Being Continued PIIN/SIIN W56HZV-09-D-0147/0002 MOD/AMD 03	Page 19 of 22
---------------------------	--	----------------------

Name of Offeror or Contractor: CONTROL POINT CORPORATION

The Contractor shall provide a variety of documentation under this task order including business management reports, training and software documentation, trip reports and technical reports. Specific working level reports will be discussed at Start of Work meeting. Specific documentation reporting includes:

C.3.1.6.1 Preparing and delivering software documentation IAW CDRL A019, including installation instructions, readme files, and instructions for system administration, user application instructions, and publishing and content management instructions.

C.3.1.6.2 Delivering source code, object code, and compilation code IAW CDRL A018 to enable a product to be successfully produced by Government.

C.3.1.6.3 Delivering all technical documentation with revision history IAW CDRL A013.

C.3.1.7 Task Area 7: Research, Analysis, and Reporting

The Contractor shall perform research, analysis, and reporting in the areas of software support strategies, publication processes, markup languages, and diagnostics.

C.3.1.8 Adequate Work Force

The Contractor must maintain at all times an adequate work force for the uninterrupted performance of all tasks defined within this performance work statement when the Government facility is not closed (with the exception of holidays/scenarios listed in Section C.2.1.6 and C.2.1.7).

C.3.2 CDRLs / Deliverables

Contractor shall submit all deliverables, as required by specific technical instructions, in accordance with CDRL detail listed in Exhibit A.

*** END OF NARRATIVE C0001 ***

Name of Offeror or Contractor: CONTROL POINT CORPORATION

SECTION H - SPECIAL CONTRACT REQUIREMENTS

H.1 LEVEL OF EFFORT FOR BASE YEAR AND OPTION YEARS 1 AND 2

H.1.1 The Government may issue and fund Technical Instructions during the Base Year, requiring the contractor to furnish up to an aggregate total of no more than 91,520 labor hours, using the labor rates and categories in accordance with CPC's proposal dated 16 May 2012.

H.1.1.1 During the base period, the Contracting Officer has the right to issue and fund Technical Instructions to add hours up to the specified aggregate Base Year total at any time on or after task order award, but in any event not later than 12 months after task order award by giving written notice to the contractor.

H.1.1.2 Similarly, if the options listed in H.1.2 and H.1.3 are exercised by the Contracting Officer, Contracting Officer has the right to issue and fund Technical Instructions to add hours up to the specified aggregate Option Year totals at any time during the respective Option Year periods of performance by giving written notice to the contractor, using the labor rates and categories in accordance with CPC's proposal dated 16 May 2012 as applicable to the respective option periods.

H.1.1.3 During any contract performance period the Government may issue and fund Technical Instructions in any quantity, subject only to the current aggregate total labor hours available. The Government has the unilateral right either to add to an existing SubCLIN the hours added to the task order by issuance of a new Technical Instruction, or to establish a new and separate CLIN or SubCLIN for the additional hours.

H.1.1.4 The total manhours added to the task order for the Base Year by issuance of Technical Instructions shall not exceed 91,520 hours. Of the 91,520 hours originally available, 63,328.1 have been awarded, and 28,191.9 remain (reference B.1.1).

H.1.2 The Government shall have the unilateral right to increase the labor hours specified by SubCLINs awarded under Option Year 1 by up to 91,520 hours using the Option Year 1 labor rates and categories in accordance with CPC's proposal dated 16 May 2012. The Contracting Officer has the right to exercise this option any time on or after task order award, but in any event not later than 24 months after task order award, by giving written notice to the contractor. The Government may exercise this option in whole or in part, and in one or more increments, and has the unilateral right either to add to an existing SubCLIN the hours added to the task order by exercise of this option or to establish a new and separate SubCLIN for the additional hours.

H.1.2.1 If the Contracting Officer exercises Option 1, the total manhours available to be added to the task order for Option 1 shall not exceed 91,520 hours. Of the 91,520 hours originally available, 32,328.2 have been awarded, and 59,191.8 remain (reference B.1.2).

H.1.3 The Government shall have the unilateral right to increase the labor hours specified by SubCLINs awarded under Option Year 2 by up to 91,520 hours using the Option Year 2 labor rates and categories in accordance with CPC's proposal dated 16 May 2012. The Contracting Officer has the right to exercise this option any time on or after task order award, but in any event not later than 36 months after task order award by giving written notice to the contractor. The Government may exercise this option in whole or in part, and in one or more increments, and has the unilateral right either to add to an existing SubCLIN the hours added to the task order by exercise of this option or to establish a new and separate SubCLIN for the additional hours.

H.1.3.1 If the Contracting Officer exercises Option 2, the total manhours available to be added to the task order for Option 2 shall not exceed 91,520 hours. Of the 91,520 hours originally available, 0 have been awarded, and 91,520 remain (reference B.1.3).
