SECTION A - SUPPLEMENTAL INFORMATION

Buyer Name: THOMAS OZARSKI  
Buyer Office Symbol/Telephone Number: CCTA-AHR-B/(586)282-3392  
Type of Contract: Firm Fixed Price  
Kind of Contract: Supply Contracts and Priced Orders  
Type of Business: Other Small Business Performing in U.S.  
Surveillance Criticality Designator: B

\*\*\* End of Narrative A0000 \*\*\*

The purpose of this modification P00001 is to incorporate the following: Reference contract clause 52.210-4502 Heavy Phosphate Coating Requirement.

1. The proposed procedure was reviewed as requested and is NOT APPROVED. The reasons are as follows:

a. The cured thickness of the dry film lubricant shall be included in the procedure per paragraph 3.3 of MIL-PRF-46010. A thickness range (e.g., 0.3-0.7 mils) or when specified (0.5-1.0 mils) shall be included in the procedure.

b. In paragraph 4.f., add the following, "The thickness tester shall be zeroed on the phosphate coating prior to taking the thickness reading on the cured paint/dry film lubricant."

2. Since the procedure is not approved, the contractor shall submit a revised procedure based on the above comments. The contractor must revise and resubmit the entire phosphate coating procedure including supplemental treatment application and test procedures. A DCMAO representative at the vendor's plant shall verify in writing, along with the resubmittal, that the revised procedure/procedures have addressed the above comments.

3. The ARDEC Chemist/Engineering Point of Contact for this review can be reached via the Contracting POC, Thomas W. Ozarski(thomas.w.ozarski.civ@mail.mil).

4. As a result of Modification P00001, the total obligated dollar amount is neither increased nor decreased.

5. Except as written, all other terms and conditions of the contract remain in effect.
