Even though the system will allow you to submit a proposal after the closing date/time, your proposal will be considered late and may not be considered for award. 7.1. All unit packages, intermediate packs, exterior shipping containers, and, as applicable, unitized loads shall be marked in accordance with MIL-STD-129, Revision P, Change Notice 4, dated 19 Sep 2007 including bar coding and a MSL label. The contractor is responsible for application of special markings as discussed in the Military Standard regardless of whether specified in the contract or not. Special markings include, but are not limited to, Shelf-life markings, structural markings, and transportation special handling markings. The marking of pilferable and sensitive materiel will not identify the nature of the materiel. Passive RFID tagging is required in all contracts that contain DFARS clause 252.211-7006. Contractors must check the solicitation and/or contract for this clause. For details and most recent information, see <http://www.acq.osd.mil/log/rfid/index.htm> for the current DoD Suppliers Passive RFID Information Guide and Supplier Implementation Plan. If the item has Unique Item Identifier (UII) markings then the UII needs to be 2D bar coded and applied on the unit package, intermediate and exterior containers, and the unit load.

8. Hazardous Materials (as applicable):

8.1 Hazardous Materials is defined as a substance, or waste which has been determined by the Secretary of Transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce and which has been so designated. (This includes all items listed as hazardous in Titles 29, 40 and 49 CFR and other applicable modal regulations effective at the time of shipment.)

8.2 When applicable, the packaging and marking for hazardous material shall comply with the requirements for the mode of transport and the applicable performance packaging contained in the following documents:

SUPPLEMENTAL INSTRUCTIONS: When the set contains multiple tool boxes and/or multiple unit containers, the tool boxes and/or multiple unit containers shall be consolidated and banded together to contain all components to one set. Banding shall be sufficient enough to prevent separation of the combined containers. Each consolidated load consisting of one complete set shall be skidded or unitized onto an approved pallet for sole distribution without rework, repalletization, repacking or remarking.

When a (set/kit) requires two or more containers, each container shall be marked IAW 5.2.14 of MIL-STD-129P. Each container shall be marked with its own number within the set (1 of 2, 2 of 2) and the number of the set within each shipment (i.e., Set 1). Each numbered container shall be identical from set to set (i.e. chest 1 of 2 of Set 1 shall be identical to chest 1 of 2 of Set 2). See FIGURE 33 for marking in MIL-STD-129P.

Manuals, parts lists, and warranty information shall be packed in sealed water proof packaging that is reusable, i.e. zip lock bag. Packing Lists shall be sealed in water-resistant envelopes and secured to the exterior of the load or container in the most protected location.

Where VCI is used, electric or battery operated devices, batteries, natural or synthetic rubber, optical systems, or precision moving parts shall be heat sealed in a bag conforming to MIL-DTL-117, Type-III, Class-B, to prevent exposure to vapors. E.1.3 The Contractor shall provide to the Procuring Contracting Officer at least 15 calendar days advance notice (in writing) of the scheduled date, time and location of the PVI, so that the Government may witness the tests. Those inspections (if any) which are of a destructive nature shall be performed upon additional sample parts selected from the same lot(s) or batch (es) from which the PVI units are selected.

E.1.4 A PVI Test Report shall be compiled by the contractor documenting the results of all inspections and tests (including suppliers and vendors inspection records and certifications, when applicable). The PVI Test Report shall include actual inspection and test results to include all measurements, recorded test data, and certifications (if applicable) keyed to each DFP requirement. E.1.6 If the PVI is disapproved, the Contractor, upon Government request, shall repeat any or all of the PVI requirements. After each request for additional PVI, the Contractor shall make any necessary changes, modifications, or repairs to the test units or select other new sample units for testing. All costs related to these PVI are to be borne by the Contractor, including any and all costs for additional PVI following disapproval. The Contractor shall then conduct the PVI and deliver another report to the Government under the terms and conditions and within the time specified by the Government. The Government will take action on this report within the time specified in paragraph E.1.5 above. The Government reserves the right to require a downward equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these repeat PVI.

E.1.7 If the Contractor fails to deliver any PVI report on time, or the Contracting Officer disapproves any PVI test report, the Contractor may be deemed to have defaulted within the meaning of FAR Clause 52.212-4, paragraph m, which is incorporated in this contract.

E.1.8 Unless otherwise provided in the contract and if the approved PVI units are not damaged or destroyed in testing, the Contractor may deliver the approved PVI units as part of the contract quantity if they meet all contract requirements for acceptance.

REQUIREMENTS

OCT/1995

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Governments requirements do not result in orders in the quantities described as estimated or maximum in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractors and Governments rights and obligations with respect to that order to the same extent as if the order were completed during the contracts effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after six and one-half years after contract award.

(End of Clause)
