Attachment 0005
RFP Questions and Answers

The following is a list of Questions from prospective offerors that were submitted to the Government for Answers regarding the RFP during the solicitation period. Questions 1 through 5 were submitted to the Government on 17 May 2014. Attached are the corresponding Answers from the Government to all 5 questions from industry, made in response to RFP W56HZV-13-R-0005 while the solicitation was on the street for proposals. These questions and answers are affixed to and part of RFP W56HZV-13-R-0005 as Attachment 0005 to the RFP and are now hereby shared with all potential offerors by Amendment 0004 to the RFP. Prospective offerors are urged to consider the answers provided by the Government to these questions in the development of their respective proposals to the RFP.

QUESTIONS AND ANSWERS:

Q1) The TDPL lists drawing 5-4-7029 as revision D, Revision B was provided. What is the correct drawing and what revision? If Rev D, please provide.

A1) There was a bad link in the TDPL from PDMS that linked to the incorrect revision of drawing 5-4-7209 (incorrectly written as 5-4-7029 on Questions 1 and 3). Revision D does exist and is being provided under the TDP now as of the effective date of this Amendment 0004.

Q2) Section C, line 70 also refers to revision D of the above. Please provide the correct drawing in order to update per the section C, line 70.

A2) There was a bad link in the TDPL from PDMS that linked to the incorrect revision of drawing 5-4-7209 (incorrectly written as 5-4-7029 on Questions 1 and 3). Revision D does exist and is being provided under the TDP now as of the effective date of this Amendment 0004.

Q3) On the following drawings, section C states to make changes to the notes for the welding specifications. Please provide clarification for the Class C callouts in the notes as to the validity.

From Section C:

Line 13 17-2-0701
Line 41 5-4-7076
Line 43 5-4-7077
Line 62 5-4-7198
Line 69 5-4-7206
Line 70 5-4-7029

Does the Class C still apply when changing from MIL-STD- 2219 to the AWS specifications or other listed specifications that call out for Class C welds?

A3) AWS welding specifications do not classify welds as did the military specifications that are now canceled. So, class C has no meaning. The Section C's really ought to be updated to reflect that and at least one drawing should NOT allow AWS D1.7 (Section C, exception 70). Engineering has provided an updated Section C to the TDP for this procurement as of the effective date of this Amendment 0004.

Q4) The solicitation Sheet 2, section A.1.1 refers to both part numbers 17-2-1551-1 and 17-2-1551-2. In the TDPL only the packaging specification P17-2-1551-2 was provided. Is there a packaging drawing for P17-2-1551-1? If so, please provide the packaging drawing.

A4) There are two different SPIs, P17-2-1551-1 and P17-2-1551-2. Both are listed on the TDPLs and both links are working, so they are both be in TDP Link for this procurement now as of the effective date of this Amendment 0004.

Q5) The welding rod called out on 5-4-7209-1 Bracket Support Weldment is stainless, but all of the components are aluminum. Will the Government provide a revision prior to award?

A5) The Government doesnt see where welding rods are called out, stainless steel or otherwise.

(end of questions and answers)
