

Document Revision Date: 03 Oct 2014

AS OF 03 OCTOBER 2014 - NO FURTHER QUESTIONS WILL BE ACCEPTED

Number	Date Question Received	Questions for Light Tactical Trailers	Government Response
1	9/3/2014	In Attachment 0002, Drawing 13230E6527, what is the required thickness of the aluminum?	Please see the updated Drawing NOR 13230E6527 to include the thickness in FBO per Amendment 0002 .
2	9/3/2014	In Attachment 0003, Drawing 06008A0009 refers to Drawing 06008A0012, but there is no drawing 06008A0012. Can that drawing be provided?	Please see added Drawing 06008A0012 in FBO per Amendment 0004.
3	9/3/2014	Please advise whether progress payment is authorized for this opportunity.	Clause 52.232-16, PROGRESS PAYMENTS is contained in the Solicitation. Progress payments are authorized.
4	9/2/2014	Is the Government looking for additional sources for trailer manufacturing, or is the past performance on the LTT-HC trailer manufacturing going to be critical enough that we have very little chance to win an award if we have not manufactured trailers in the past?	All offerors will be evaluated in accordance with Sections L & M of the Solicitation.
5	9/8/2014	CDRL's A003, A006, and A009 appear to be requirements for an item that has not yet been designed, developed and tested. As the LTT-HC appears to be a build to print project, are these CDRL's necessary for this effort?	CDRLS are required to be completed during performance of the contract. Specifically, CDRLs A003, A006 and A009 are required to support Production Verification Testing.
6	9/8/2014	When is the closing date for Questions and Answers for the following RFP?: 23--Light Tactical Trailer Heavy Chassis (LTT-HC) Solicitation Number: W56HZV13R0209	All questions must be received by the Government by close of business (COB) 16 September 2014.
7	9/10/2014	What is the password for Attachment 0009?	The password on Attachment 0009 has been removed per Amendment 0003.

8	9/22/2014	In Attachment 0003, please advise if the following drawings are available: 52 - 12449503 53 - 12449506 56 - 12342077	Please see added Drawings 12449503, 12449506, and 12342077 in FBO per Amendment 0005.
9	9/29/2014	In regards to drawings 12449503, 12449506, and 12342077, how many of each item are required per assembly?	The TDP has been updated and the quantities can be found on the top drawing 06008A0000, sheet 1.
10	9/26/2014	With both runflats illustrated within the TDP (drawings 12342638 and 12561892), please confirm which runflat is actually required?	Per the LTT-HC TDP, the PN referenced in drawing 12561892 is required.
11	9/26/2014	If the assembly in drawing 12561892 is the required runflat, does the Government intend to update the tire and wheel drawings to reflect Hutchinson as the only approved source?	Drawing 12561892 reflects Hutchinson Industries, Inc. as the approved source of supply for this part.
12	9/26/2014	Does the Government understand that the change to the MRF runflat will yield product that is different than all past fielded LTT trailers beneath all past contracts?	Per the LTT-HC TDP, the PN referenced in drawing 12561892 is required for all new design work and procurement.
