 - b. 52.204-4020 (LOCAL WARREN), Access and General Protection/Security Policy and Procedures (JUN 2012)

The contractor shall also provide all information required for background checks to meet installation access requirements to be accomplished by the installation Provost Marshal Office, Director of Emergency Services, or Security Office. The contractor workforce must comply with all personal identity verification requirements as directed by DoD, HQDA, and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in contractor security matters or processes.

(End of Clause)

- c. 52.204-4600 (TACOM), Trusted Associate Sponsorship System (TASS) Program (OCT 2013)

The contractor is responsible for processing applications for Common Access Cards (CAC) for every contractor employee who deploys with the military force, OR who has need to access any government computer network in accordance with FAR 52.204-9, "Personal Identity Verification of Contractor Personnel."

The contractor is responsible for managing requests for new or renewal CAC cards in sufficient time to ensure that all contractor employees have them when needed to perform work under this contract. The norm is at least ten calendar days' advance notice to the Trusted Agent* (TA), unless there are extenuating circumstances approved by the Contracting Officer's Representative (COR) or Contracting Officer.

*The COR will be the TA for this contract.

The contractor shall obtain an Army Knowledge Online (AKO) email address for each applicant, including subcontractors, who may be deployed or require logical access to a government computer network. This can be done by going to <http://www.us.army.mil> and register as an "Army Guest" with the sponsor being the COR. Note: If a contractor employee loses the privilege to access AKO, they lose the ability to renew their CAC. Therefore it is critical that contractor employees maintain their AKO accounts.

It is recommended that a "Corporate Facility Security Officer (FSO) be established to serve as your firm's single point of contact for Trusted Associate Sponsorship System (TASS). If a FSO is not established, each contractor employee requiring a CAC card will be required to process their own applications.

CAC applications must be processed through the DoD's TASS. The contractor's FSO or contractor employee shall submit requests for a CAC via email to the TASS Trusted Agent (TA) at [TBD] before accessing the TASS website.

The government will establish a TASS application account for each CAC request and will provide each contractor employee a USER ID and Password via email to the FSO. The FSO or contractor employee shall access the TASS account and complete the CAC application (entering/editing contractor information as applicable) at <https://www.dmdc.osd.mil/tass/operator/consent?continueToUrl=%2Ftass%2Findex.jsp>.

The FSO or contractor employee will submit completed applications in TASS, and will follow up to ensure that the TA is processing the request.

The government will inform the contractor's applicant via email of one of the following:

- Approved*. Upon approval, the information is transferred to the Defense Enrollment Eligibility Reporting System (DEERS) database and an email notification is sent to the contractor with instructions on obtaining their CAC. The contractor proceeds to a Real-Time Automated Personnel Identification System (RAPIDS) station (<https://www.dmdc.osd.mil/rsl/> provides RAPIDS locations).
- Rejected*. Government in separate correspondence will provide reason(s) for rejection.
- Returned. Additional information, or correction to the application, required by the contractor employee.

*The contractor will maintain records of all approved and rejected applications.

At the RAPIDS station, the RAPIDS Verification Officer will verify the contractor by SSN, and two forms of identification, one of which must be a picture ID. The Verification Officer will capture primary and alternate fingerprints and picture, and updates to DEERS and will then issue a CAC.

Issued CACs shall be for a period of performance not longer than three (3) years or the individual's contract end date (inclusive of any options) whichever is earlier.

The contractor shall return issued CAC's to the DEERS office upon return from deployment, departure or dismissal of each contractor employee. A receipt for each card must be obtained and provided to the TA/COR.

A CAC cannot be issued without evidence that a National Agency Check with Written Inquires (NACI) has at least been initiated by the FSO. TASS will be linked to the Joint Personnel Adjudication System (JPAS) in the near future. The TA will have to verify via JPAS that the NACI has been initiated by the FSO before he/she can approve a contractor request for a CAC.

Details and training on TASS are available on AKO at <https://www.us.army.mil/suite/portal/index.jsp> or by contacting the CAC helpdesk at cacsupport@mail.mil or 866-738-3222.

The Government intends to award a single task order, resulting from this TOR, to the offeror whose response will provide the overall “Best Value” to the Government, technical and cost/price considered. The contracting officer may select for award that proposal in which the total evaluated cost/price is not necessarily the lowest, but whose overall response is deemed most advantageous to the Government so as to justify the payment of a higher cost/price. Conversely, the contracting officer may select that proposal whose total evaluated cost/price is the lowest when other responses are not sufficiently more advantageous to justify the payment of a higher cost/price.
2. The Government intends to evaluate responses and award a single task order without discussions/communications with offerors. Therefore, the offeror’s initial response shall contain its best terms from a cost and technical standpoint. However, the Government reserves the right to negotiate with one or more, but not necessarily all, offerors, for any reason, if it so desires; any proposal revisions shall be limited to the items negotiated. The Government may accept other than the lowest cost, and waive informalities and minor irregularities in the submitted responses.
3. The reasons for rejection contained in paragraph M.3 of the KBS contract suite solicitation, W56HZV-14-R-0030, shall apply to this TOR. In addition, offerors must possess, at time of proposal submission, a current, active TOP SECRET or SECRET level FCL. Failure to provide proof of an active FCL with the proposal will result in the proposal not being considered for award of this task order.
4. Offerors will be evaluated on two factors: (1) Technical and (2) Cost/Price. For the purposes of this task order, the Technical Factor is slightly more important than the Cost/Price Factor. However, if the Technical evaluations are equal, then cost/price will be the deciding factor.
5. The Government will evaluate proposals from offerors who have received a prime MA IDIQ contract under the KBS contract suite utilizing the Technical and Cost/Price evaluation criteria contained in Section M of the KBS contract suite solicitation, W56HZV-14-R-0030.

Volume III – Technical Factor: The Government will evaluate the offeror’s Technical Factor Volume response IAW paragraph M.6 of the KBS contract suite solicitation, W56HZV-14-R-0030.

Volume IV – Cost/Price Factor: The Government will evaluate the offeror’s Cost/Price Factor Volume response IAW paragraphs M.7.2-4 of the KBS contract suite solicitation, W56HZV-14-R-0030.
