SECTION A **SUPPLEMENTAL INFORMATION**

1. This is a Task Order Request (TOR) for services to be provided under the Research and Development (R&D) contract suite against TACOM Strategic Service Solutions (TS3), a family of Multiple Award Indefinite Delivery Indefinite Quantity (MA IDIQ) contracts.
2. The contracting officer has determined that the services under this TOR are **noncommercial**.
3. This TOR is for a task order for the R&D contract suite solicitation, W56HZV-14-R-0032. Proposals submitted by offerors will be used to make a determination as to which offerors will receive an IDIQ contract in the R&D contract suite. Additionally, this TOR will be awarded, subject to the availability of funds and bona fide need at the time of task order award, to the R&D prime IDIQ contractor whose proposal represents the best value to the Government as set forth in Sections L and M below.
4. Proposals shall fully comply with the instructions in this TOR. Offerors shall read the entire R&D contract suite solicitation, W56HZV-14-R-0032, and this TOR (to include attached documents), prior to submitting their proposals. Proposals (to include cost/price) shall be valid for 180 calendar days after the closing date of this TOR.
5. Task Order Type: The Government contemplates an award of a task order on a **Cost-Plus-Fixed Fee – Term** basis.
6. The award of this task order is anticipated to be made within 45 days of the award of the TS3 R&D MA IDIQ contracts.
7. Any award issued as a result of this TOR will be distributed electronically. Awards will include the awarded unit price. This is the notice required by Executive Order 12600 (June 23, 1987) of our intention to release unit prices in response to any request under the Freedom of

SECTION K REPRESENTATIONS, CERTIFICATIONS, AND STATEMENTS OF OFFERORS

1. The Government will review the offeror's record within the System for Award Management (SAM) and will review the Representations, Certifications, and Statements listed within into the offeror's proposal submission. The offeror shall ensure that its SAM record is active and current as of the time of proposal submission.

SECTION L INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

1. Offerors shall electronically submit one proposal by the closing date and time specified on page 1 of this TOR.
2. Although the Government does not intend to hold discussions, the Government does reserve the right to negotiate with one or more, but not necessarily all offerors, for any reason.*****
3. The offeror's R&D Labor Pricing Matrix (Attachment 0002) proposed in response to the MA IDIQ solicitation sets forth the labor categories and associated maximum labor rates the Government will reimburse for any given performance period . Offerors are advised that the labor rates proposed to successfully perform the R&D task order PWS (Attachment 0010) should reflect the most competitive price. The proposed labor rates for the R&D PWS may not exceed the fully burdened labor rate(s) reflected in the R&D Pricing Labor Matrix (Attachment 0002).
4. In accordance with Section M of this TOR, offerors will be evaluated on two factors: (1) Technical and (2) Cost/Price. For the purposes of this task order, the Technical Factor is slightly***** more important than the Cost/Price Factor. However, if the Technical evaluations are equal, then cost/price will be the deciding factor. The offeror shall abide by the following instructions when submitting a response to this TOR:

Volume III – Technical Factor: The offeror's Technical Volume response prepared IAW the instructions contained in paragraph L.5 of the R&D contract suite solicitation, W56HZV-14-R-0032, will be used by the Government in the evaluation of this task order requirement. The offeror shall only submit one Technical Volume, which will be used by the Government for both the MA IDIQ level and task order level evaluations.

Volume IV – Cost/Price Factor: The offeror's Cost/Price Volume response prepared IAW the instructions contained in paragraphs L.6.1 and L.6.2.2 of the R&D contract suite solicitation, W56HZV-14-R-0032, will be used by the Government in the evaluation of this task order requirement. The offeror shall only submit one Cost/Price Volume, which will be used by the Government for both the MA IDIQ level and task order level evaluations.

5. The offeror shall abide by the instructions contained in paragraphs L.1 and L.2 of the R&D contract suite solicitation, W56HZV-14-R-0032, when preparing its proposal in response to this TOR.

SECTION M EVALUATION FACTORS FOR AWARD

1. The Government intends to award a single task order, resulting from this TOR, to the offeror whose response will provide the overall “Best Value” to the Government, technical and cost/price considered. The Contracting Officer may select for award that proposal in which the total evaluated cost/price is not necessarily the lowest, but whose overall response is deemed most advantageous to the Government so as to justify the payment of a higher cost/price. Conversely, the Contracting Officer may select that proposal whose total evaluated cost/price is the lowest when other responses are not sufficiently more advantageous to justify the payment of a higher cost/price.
2. The Government intends to evaluate responses and award a task order without exchanges of information with offerors. Therefore, the offeror’s initial response shall contain its best terms from a cost and technical standpoint. However, the Government does reserve the right to negotiate with one or more but not necessarily all offerors, for any reason, if it so desires; any proposal revisions shall be limited to the items negotiated. The Government may accept other than the lowest cost/price, and waive informalities and minor irregularities in the submitted responses.
3. Offerors will be evaluated on two factors: (1) Technical and (2) Cost/Price. For the purposes of this task order, the Technical Factor is slightly***** more important than the Cost/Price Factor. However, if the Technical evaluations are equal, then cost/price will be the deciding factor.
4. The Government will evaluate proposals from offerors who have received a prime MA IDIQ contract under the R&D contract suite utilizing the Technical and Cost/Price evaluation criteria contained in Section M of the R&D contract suite solicitation, W56HZV-14-R-0032.

Volume III – Technical Factor: The Government will evaluate the offeror’s Technical Factor Volume response IAW paragraph M.6 of the R&D contract suite solicitation, W56HZV-14-R-0032.

Volume IV – Cost/Price Factor: The Government will evaluate the offeror’s Cost/Price Factor Volume response IAW paragraphs M.7 of the R&D contract suite solicitation, W56HZV-14-R-0032.
