EXECUTIVE SUMMARY for
Heavy Duty Truck vehicle variants
Requirements Contract

This Executive Summary is provided as a synopsis of important and relevant features in the Solicitation. If conflict exists between this summary and the provisions of the solicitation, the provisions of the solicitation govern. Currently, requirements are expected to be referred to the U.S. Army Contracting Command - Warren (ACC-Warren) for the Security Assistance Management Directorate (SAMDM). There is a possibility that other countries could have the same requirements during the term of the requirements contract to be awarded pursuant to this solicitation and those requirements may be referred to ACC-Warren for procurement. This requirements contract is limited to customers or those Foreign Military Sales (FMS) requirements which are referred to ACC-Warren for procurement; provided that the procurement of any requirement that is subject to the restrictions on off-shore procurement imposed by Section 42(c) of the Arms Export Control Act may be withheld from this contract to the extent that the supplies that may be ordered under this contract do not comply with the requirements of the Arms Export Control Act. Market research identified several common automotive brand names with one common model platform/nameplate for variants (with diesel engine in both LHD-left hand drive & RHD-right hand drive): Flatbed Truck, General Transport (Personnel Carrier) Truck, Water-Tank Truck, and Fuel-Tank Truck with optimal common spare parts for AFRICOM countries.

1. Introduction: This action is being executed as a commercial buy, IAW FAR part 12.6, Streamlined Procedures for Evaluation and Solicitation for Commercial Items, in which award will be made to a responsible offeror that is assessed as Acceptable in the Technical Capability Factor with the Lowest Total Evaluated Price (see section M.1).

FAR 52.212-1 (c) indicates period for acceptance of offers for 30 calendar days from the date specified for receipt of offers; however, this proposal shall have a period for acceptance of offers for 60 calendar days.

2. Competition: This solicitation will be full and open competition.

3. Contract Overview: The Government anticipates that only one contract will be awarded under this solicitation, a three (3) year-term, Firm-Fixed Price Requirements Contract. The award of a requirements contract does not guarantee that the Government will issue a Delivery Order for any quantities under the contract.

4. Contract Format:

Section A, "SUPPLEMENTAL INFORMATION"
Section B, "SUPPLIES OR SERVICES AND PRICES/COSTS"
Section C, "DESCRIPTIONS/SPECIFICATIONS/WORK STATEMENTS"
Section D, "PACKAGING AND MARKING"
Section E, "INSPECTION AND ACCEPTANCE"
Section F, "DELIVERIES OR PERFORMANCE"
Section G, "CONTRACT ADMINISTRATION DATA"
Section H, "SPECIAL CONTRACT REQUIREMENTS"
Section I, "CONTRACT CLAUSES"
Section J, "LIST OF ATTACHMENTS"
Section K, "REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS OF OFFERORS"
Section L, "INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS"
Section M, "EVALUATION FACTORS FOR AWARD"

5. Basis of Award:

Please read Sections L and M carefully, so you understand what is to be submitted, as well as when and how it will be evaluated.

6. No Discussions Anticipated: The Government intends to award a contract without holding discussions with Offerors. Thus, each Offeror must be careful to include any and all information requested in the solicitation at time of submittal to avoid being determined

non-responsive to this request for proposals. However, the Government reserves the right to hold discussions should it deem them to be in its best interests in determining the best value proposal.

7. Responsibility: In order to determine that Offerors are deemed responsible and competent to perform on these contract(s), Offerors will have to ensure the Government that they are in compliance with the standards listed in FAR 9.104. The Government may obtain certain information by exercising rights under FAR 9.105. Also, potential contractors must be registered in the System for Award Management (SAM) prior to award, website: www.sam.gov

8. Standards of Conduct - Improper Business Practices: Corruption or any other improper business practices related to this solicitation and any resulting contract(s) will not be tolerated. Transactions relating to the expenditure of public funds require the highest degree of public trust and an impeccable standard of conduct by contractors, subcontractors, and any other agent acting in connection with this contract. Examples of such unacceptable behavior include providing or offering of bribes to any person associated with the contract or any subcontracts; soliciting or accepting kickbacks or bribes; and knowingly making any false or misleading accounting reports or financial statements. Contractors, subcontractors, and any other agents acting under the contract awarded herein are expected to employ due diligence and have internal controls in place towards practicing good governance in execution of this contract. Any one of these entities found to have engaged in illegal activity, improper behavior, or corrupt practices will be subject to corrective actions in accordance with the respective FAR or DFARS clause incorporated into this solicitation and any resultant contract.

9. Clause Comment: Many clauses that will be contained in the solicitation will be applicable to U.S. and international companies. However, some will apply only to U.S. firms and some will only apply to international firms.

10. Logistics:

a) Operator Manuals - Offeror must provide operator manuals in English and the language specified in the contract (French or Arabic) with each vehicle ordered under the contract.

b) Spare Parts - Offeror must provide pricing for all parts listed in Exhibit B for all three years. These are the parts required to perform scheduled maintenance and replacement in a single year of usage, based on projected use of 36,000 miles in the climate, environment and landscape of FMS countries. Actual parts requested and respective quantities may vary as specified later in the actual delivery orders issued against this contract.

c) Service Center Support - In order to satisfy basic upkeep of the vehicles or end items supplied under the contract, the Offeror must identify a OEM "Authorized Maintenance" source of service center support (name and address with point of contact (POC) name, phone number, email, etc.) in all potential AFRICOM FMS countries: Burkina Faso, Burundi, Chad, Djibouti, Ethiopia, Ghana, Kenya, Libya, Mali, Mauritania, Niger, Tunisia, and Uganda, as described in Attachment 0003, Technical Information Questionnaires (TIQ), throughout the term of the contract.

d) Warranty - Standard commercial warranty is required and must be provided by Offeror, supported in full. A copy of the warranty will be submitted and market research will be performed by the Government to verify its authenticity.

11. Availability of Funds: This procurement is subject to availability of funds. The Government reserves the right to not make any award based on this solicitation.

12. Radio Frequency Identification (RFID): The requirement for RFID tags on all shipments of vehicles, end items and equipment is defined at Attachments 0001 and 0002, Specifications. Contractor shall list the VIN/serial number and corresponding RFID tag number for each item in an Excel Spreadsheet and provide a copy to: TBD.

13. Proposal Submission Instructions: Offerors should carefully review Section L, for detailed instructions on electronic proposal submission. To be considered for award, proposals must be submitted to the Army Single Face to Industry (ASFI) Online Bid Response System (BRS) no later than the date and time stated in block 8 of SF 1449. The term "local time" as used in block 8 means the local time at Warren, Michigan, USA.

14. Proposal Preparation Costs: The Government will not reimburse any Offeror for the cost of preparing and submitting proposals.

1 52.204-4005	REQUIRED USE OF ELECTRONIC CONTRACTING	AUG/2012

(a) All contract awards, modifications and delivery orders issued by Army Contracting Command - Warren (DTA) will be issued electronically. The contractor has the option to receive these actions either via the Worldwide Web (WWW) or Electronic Data Interchange (EDI). Many provisions/clauses that appear "by reference," meaning only clause titles and regulation site are listed; their full texts can be found at the website <http://farsite.hill.af.mil/>

(b) In order to be eligible to receive an award under this solicitation, the successful offeror must be registered with the Department of Defense (DOD) System for Award Management (SAM). The SAM registration process may be done electronically at the World Wide Web (WWW) site: <https://www.sam.gov/portal/public/SAM>. (In order to be registered to use EDI, you must use the long form for registration. Certification information, including information on the EDI 838 TPP, must be furnished to the Contracting Officer within 60 calendar days after contract award to complete networking requirements within the Government.)

(c) Worldwide Web Distribution. The contractor will receive an electronic Notice of the Award, Modification, or Delivery Order via e-mail. If you choose the WWW option, you must download the file from the appropriate Army Contracting Command - Warren webpage:

Anniston Army Depot: <https://acquisition.army.mil/asfi/>

(d) Electronic Data Interchange. If you choose to receive contract awards, modifications and delivery orders through EDI, they will be delivered electronically via the Federal Acquisition Network (FACNET). Federal Standard Version 3050 of Standard X12 from the American National Standards Institute (ANSI) will be used as the format for these electronic transactions.

(1) You must complete the EDI 838 Trading Partner Profile, and must agree (i) to subcontract with a DoD certified VAN or Value Added Service (VAS) provider, or (ii) to become DoD certified as a Value Added Network (VAN). The EDI 838 Training Partner Profile is contained in the basic SAM registration form and includes portions of the registration form which are titled "Optional".

(2) You must select a VAN from the official DoD approved list. DoD Certified VANs are listed at <http://www.acq.osd.mil/dpap/ebiz/VANs.htm>. If your VAN is later removed from the official list, or if you voluntarily drop your initially selected VAN, then you must switch to a VAN that remains on the official DoD approved list. You must maintain an active account on a DoD approved VAN for the entire duration of the contract, beginning no later than the 60th day after award.

(e) Unless otherwise specified elsewhere in the contract, all data items you are required to provide under this contract must be submitted electronically. Please go to the following webpage for detailed information about submitting your offer electronically: <http://contracting.tacom.army.mil/acqinfo/ebidnotice.htm>

If this documentation is requested, use the same email address or fax number shown in paragraph (b) below to submit the information. No copies of the WAWF Receiving Report are required unless specifically requested by the PCO, buyer, or other appropriate government official.

(b) For those rare cases where the Material Inspection and Receiving Report (DD 250) is used to process receiving reports for inspection, acceptance, and payment, use one of the following methods to send each DD 250 pertaining to this contract to us:

[End of Clause]

H.1 Contract Exchange Rate: All offers shall be submitted in U.S. dollars, evaluated in U.S. dollars, and all awards will be executed in U.S. dollars. (This clause will only be applicable for future delivery orders awarded after 30 Sep 2014 and can be utilized on all CLINs (0011 through 0093) for all three performance years.).

H.1.1 The source for all exchange rate data under this contract is Yahoo Finance Currency Center (<http://finance.yahoo.com/q?s=EURUSD=X>). In the event that this source becomes unavailable, the parties shall mutually agree on a new exchange rate data source. Establishment of the baseline exchange rate at time of initial contract award will be the closing exchange rate found at this source, for the sixth business day prior to the due date for submission of offers on this solicitation. An amendment to the solicitation will be sent out to identify the baseline rate and the associating high and low bands.

H.1.2 After 01 Oct 2014, the Yahoo Finance Currency Center will be utilized to determine the actual exchange rate value for the upcoming delivery order award to establish the Euro equals U.S. Dollars format. To determine this actual exchange rate the Government will use the closing exchange rate for the sixth business day prior to delivery order award. For example, a delivery order award on 13 Nov 2014 will utilize the exchange rate for the close of business on 5 Nov 2014.

H.1.3 Price Adjustment for Exchange Rate Increase/Decrease

H.1.3.1 The Government and the Contractor acknowledge that the unit price payable to the Contractor for delivery orders issued after 01 Oct 2014 will be subject to potential risks due to exchange rate fluctuations between the U.S. dollar and the Euro. Therefore, the baseline prices established at time of the basic award shall be considered for potential upward or downward adjustment if they exceed a 4.0% (plus or minus) change, to mitigate such risks. Any delivery order award adjustments made to the basic award unit prices shall include the calculations upon which they were based. These adjustments shall be made in accordance with the paragraphs below and set forth in the future Delivery Orders issued against this contract.

H.1.3.2 Exchange Rate High/Low Bands: The high band rate to be used for this contract will be baseline exchange rate at time of initial contract award plus 4.0%. The low band rate to be used for this contract will be baseline exchange rate at time of initial contract award minus 4.0%. If the actual exchange rate at the time of award of any delivery orders is determined to be between the high band rate and the low band rate, the baseline unit price will NOT be adjusted.

H.1.3.3 If the actual exchange rate at time of delivery order award is greater than the high band rate or less than the low band rate, the unit price of the CLIN being awarded shall be adjusted using the following procedure:

- a. If the actual exchange rate is above the high band rate, the following equation shall be used:

High Band Equation

- Adjusted unit price of CLIN equals base CLIN unit price multiplied by (actual exchange rate divided by high band contract exchange rate)

- b. If the actual exchange rate is below the low band rate, the following equation shall be used:

Low Band Equation

- Adjusted unit price of CLIN equals base CLIN unit price multiplied by (actual exchange rate divided by low band contract exchange rate).

***NOTE: Use four (4) decimal places for all intermediate operations in the equations above. Use zero (0) decimal places (nearest dollar) for the new actual CLIN price.

The adjustment (if necessary) will be calculated by the Government and will be factored into the delivery order, which will be sent to the contractor for review and signature and returned for the contracting officer's approval.

H.1.4 The following are examples of an actual exchange rate above the high band rate and a lower actual exchange rate below the low band rate and its impact on the unit price. The baseline contract exchange rate for these examples is assumed to be 1.3462. Therefore the high band rate would be 1.4000 as set in the contract. The low band rate is 1.2924 as set in the contract. These examples will use a base unit price of \$40,000 under CLIN XXXX to explain the process.

Examples

1) The actual exchange rate at adjustment is at 1.3900. Since the rate is within the high and low band rate range of 1.2924 to 1.4000, there is no adjustment and the unit price is \$40,000.

2) The exchange rate at adjustment is 1.4300. The rate is above the high band

Name of Offeror or Contractor:

rate of 1.4000 so the base CLIN price is adjusted using equation (1) as set in H.1.3.3(a).

Actual price equals \$40,000 times (1.4300/1.4000)

$1.4300/1.4000 = 1.0214$

$\$40,000 \times 1.0214 = \$40,856$

The actual price of CLIN equals \$40,856

3) The exchange rate at adjustment is 1.2512. The rate is below the low band rate of 1.2924 so the base CLIN price is adjusted using equation (2) as set in H.1.3.3(b).

Actual price equals \$40,000 times (1.2512/1.2924)

$1.2512/1.2924 = 0.9681$

$\$40,000 \times 0.9681 = \$38,724$

The actual price of CLIN equals \$38,724

(a) Definition. See 13 CFR 125.6(e) for definitions of terms used in paragraph (d).

(b) Evaluation preference.

(1) Offers will be evaluated by adding a factor of 10 percent to the price of all offers, except

(i) Offers from HUBZone small business concerns that have not waived the evaluation preference; and

(ii) Otherwise successful offers from small business concerns.

(2) The factor of 10 percent shall be applied on a line item basis or to any group of items on which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor.

(3) A concern that is both a HUBZone small business concern and a small disadvantaged business concern will receive the benefit of both the HUBZone small business price evaluation preference and the small disadvantaged business price evaluation adjustment (see FAR clause 52.219-23). Each applicable price evaluation preference or adjustment shall be calculated independently against an offerors base offer. These individual preference amounts shall be added together to arrive at the total evaluated price for that offer.

(4) When the two highest rated offerors are a HUBZone small business concern and a large business, and the evaluated offer of the HUBZone small business concern is equal to the evaluated offer of the large business after considering the price evaluation preference, award will be made to the HUBZone small business concern.

(c) Waiver of evaluation preference. A HUBZone small business concern may elect to waive the evaluation preference, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraphs (d) and (e) of this clause do not apply if the offeror has waived the evaluation preference.

___ Offer elects to waive the evaluation preference.

(d) Agreement. A HUBZone small business concern agrees that in the performance of the contract, in the case of a contract for

(1) Services (except construction), at least 50 percent of the cost of personnel for contract performance will be spent for employees

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern or other HUBZone small business concerns;

(3) General construction. (i) At least 15 percent of the cost of contract performance to be incurred for personnel will be spent on the prime contractor's employees;

(ii) At least 50 percent of the cost of the contract performance to be incurred for personnel will be spent on the prime contractor's employees or on a combination of the prime contractor's employees and employees of HUBZone small business concern subcontractors;

(iii) No more than 50 percent of the cost of contract performance to be incurred for personnel will be subcontracted to concerns that are not HUBZone small business concerns; or

(4) Construction by special trade contractors. (i) At least 25 percent of the cost of contract performance to be incurred for personnel will be spent on the prime contractor's employees;

(ii) At least 50 percent of the cost of the contract performance to be incurred for personnel will be spent on the prime contractor's employees or on a combination of the prime contractor's employees and employees of HUBZone small business concern subcontractors;

(iii) No more than 50 percent of the cost of contract performance to be incurred for personnel will be subcontracted to concerns that are not HUBZone small business concerns.

(e) A HUBZone joint venture agrees that the aggregate of the HUBZone small business concerns to the joint venture, not each concern separately, will perform the applicable percentage of work requirements.

(f)(1) When the total value of the contract exceeds \$25,000, a HUBZone small business concern nonmanufacturer agrees to furnish in performing this contract only end items manufactured or produced by HUBZone small business concern manufacturers.

(2) When the total value of the contract is equal to or less than \$25,000, a HUBZone small business concern nonmanufacturer may provide end items manufactured by other than a HUBZone small business concern manufacturer provided the end items are produced or manufactured in the United States.

(3) Paragraphs (f)(1) and (f)(2) of this section do not apply in connection with construction or service contracts.

The HUBZone offeror shall provide the Contracting Officer a copy of the notice required by 13 CFR 126.501 if material changes occur before contract award that could affect its HUBZone eligibility. If the apparently successful HUBZone offeror is not a HUBZone small business concern at the time of award of this contract, the Contracting Officer will proceed to award to the next otherwise successful HUBZone small business concern or other offeror.

offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ___ Are, ___ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ___ Have, ___ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). (TACOM)

(a) The unit price for each year will be multiplied by the estimated annual requirement for the corresponding year, and the results for each year added together to produce the evaluated price for the total maximum quantity. Based on this method of evaluation, award will be made to the responsible offeror whose offer represents the lowest evaluated price, or, if applicable, represents the Best Value to the Government as outlined elsewhere in this solicitation.

(b) If this solicitation contains quantities to be shipped FOB Origin, transportation cost will be evaluated as specified in the EVALUATION OF TRANSPORTATION COSTS provision elsewhere in this Section, and award will be made to the responsible offeror whose offer represents the lowest evaluated price including transportation costs, or, if applicable, represents the Best Value to the Government as outlined elsewhere in this solicitation.

Name of Offeror or Contractor:

SECTION-M EVALUATION:

M.1 BASIS OF AWARD: The Government plans to award a single three (3) year-term, Firm-Fixed-Price requirements contract for Heavy Duty Trucks: Flatbed Truck, General Transport (Personnel Carrier) Truck, Water-Tank Truck, Fuel-Tank Truck, and Spare Parts to a responsible offeror that is assessed as Acceptable in the Technical Capability Factor with the Lowest Total Evaluated Price.

M.1.2 EVALUATION: The evaluation will be conducted in accordance with FAR 12.6 (Streamlined Procedures for Evaluation and Solicitation for Commercial Items). There are two factors: (1) Price and (2) Technical Capability. The Government intends to conduct a price evaluation, to include transportation costs, on all proposals. The Government will then conduct a technical capability review of the lowest total evaluated priced proposal. If the lowest priced proposal is determined to be Unacceptable, then the Government will conduct a technical capability review on the next lowest priced proposal. Unless the Government determines it is in its best interests to conduct discussions, the Government will follow this process until the lowest priced, technically acceptable proposal is identified.

M.1.3 TECHNICAL CAPABILITY FACTOR: For an offeror to be eligible for award, its proposal must be assessed as Acceptable under each section of the Technical Information Questionnaires (TIQs) (Attachment 0003 and 0004). Offerors found to be Unacceptable under any section of the TIQ will not be considered for award. To determine Acceptability,

- (1) the Offerors response must indicate it can meet each requirement on the TIQ; and,
- (2) where supporting documentation is required, the Government will review the information submitted to confirm that the Offeror is capable of meeting the requirement.

An Acceptable proposal is one which clearly meets the minimum requirements of the solicitation. An Unacceptable proposal is one which does not clearly meet the minimum requirements of the solicitation.

M.1.4 PRICE FACTOR: The information submitted in response to Section L.3 will be evaluated to assess the reasonableness of the offerors total evaluated price. A price is considered reasonable if it does not exceed what would be incurred by a prudent person in the conduct of competitive business. The total evaluated price will consist of the total sum of all CLIN numbers 0011 through 0093 (base) and the transportation costs as determined by the ACC-Warren Transportation Office for all FOB origin CLINs (base). For purposes of evaluating the Governments transportation costs, all left hand drive (LHD) vehicle CLINs: 0011, 0012, 0013, 0031, 0032, 0033, 0051, 0052, 0053, 0071, 0072, 0073 plus Spare Parts CLINs 0091, 0092 & 0093 will use Douala, Cameroon, west Africa as the common destination port of entry and all right hand drive (RHD) vehicle CLINs: 0021, 0022, 0023, 0041, 0042, 0043, 0061, 0062, 0063, 0081, 0082, 0083 plus Spare Parts CLINs 0091, 0092 & 0093 will use Mombasa, Kenya, east Africa as the common destination port of entry.

M.1.5 DISCUSSIONS: In accordance with FAR clause 52.212-1(g), the Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offerors initial offer should contain the offerors best terms from a price and technical capability standpoint. However, the Government reserves the right to conduct discussions if it is later determined by the Contracting Officer to be necessary. In addition, the Government reserves the right, without entering discussions, to request additional information necessary to support the offerors price in order to determine price reasonableness.

CHANGED FS6052 52.247-60 01-APR-2014 GUARANTEED SHIPPING CHARACTERISTICS
(WARREN)

(a) The offeror is requested to complete subparagraph (a)(1) of this clause, for each part or component which is packed or packaged separately. This information will be used to determine transportation costs for evaluation purposes. If the offeror does not furnish sufficient data in subparagraph (a)(1) of this clause, to permit determination by the Government of the item shipping costs, evaluation will be based on the shipping characteristics submitted by the offeror whose offer produces the highest transportation costs or in the absence thereof, by the Contracting Officers best estimate of the actual transportation costs. If the item shipping costs, based on the actual shipping characteristics, exceed the item shipping costs used for evaluation purposes, the Contractor agrees that the contract price shall be reduced by an amount equal to the difference between the transportation costs actually incurred, and the costs which would have been incurred if the evaluated shipping characteristics had been accurate.

a. To calculate Lbs in item (ix) above: [(v) x (vii)] + (viii)

b. To calculate Cube in item (ix) above: provide length, width and height of loaded pallet in inches. This should be greater than item (iii).

CHANGED MF60001 52.212-2 01-JAN-1999 EVALUATION--COMMERCIAL ITEMS

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

(1) TECHNICAL CAPABILITY OF THE ITEMS OFFERED TO MEET THE GOVERNMENT REQUIREMENT.

(2) PRICE.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offers specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Bureau of Domestic Regulation, Federal Maritime Commission, or other appropriate regulatory authorities as of the date of bid opening (or the closing date specified for receipt of offers) and which will be effective for the date of the expected initial shipment will be used in the evaluation of offers.

(b) F.o.b. origin, transportation under Government bill of lading.

(1) Offers shall be evaluated and awards made on the basis of the lowest laid down cost to the Government at the overseas port of discharge, via methods and ports compatible with required delivery dates and conditions affecting transportation known at the time of evaluation. Included in this evaluation, in addition to the f.o.b. origin price of the item, shall be the inland transportation costs from the point of origin in the United States to the port of loading, port handling charges at the port of loading, and ocean shipping costs from the United States port of loading (see paragraph (d) of this clause) to the overseas port of discharge. The Government may designate the mode of routing of shipment and may load from other than those ports specified for evaluation purposes.

(2) Offers shall be evaluated on the basis of shipment through one of the ports set forth in paragraph (d) of this clause to the overseas port of discharge. Evaluation shall be made on the basis of shipment through the port that will result in the lowest cost to the Government.

(3) Ports of loading shall be considered as destinations within the meaning of the term f.o.b. destination as that term is used in the F.o.b. Origin clause of this contract.

(c) F.o.b. port of loading with inspection and acceptance at origin --

(1) Offers shall be evaluated on the basis of the lowest laid down cost to the Government at the overseas port of discharge via methods compatible with required delivery dates and conditions affecting transportation known at the time of evaluation. Included in this evaluation, in addition to the price to the United States port of loading (see paragraph (c)(2) of this clause), shall be the port handling charges at the port of loading and the ocean shipping cost from the port of loading (see paragraph (d) of this clause) to the overseas port of discharge.

(2) Unless offers are applicable only to f.o.b. origin delivery under Government bills of lading (see paragraph (b) above), offerors shall designate below at least one of the ports of loading listed in paragraph (d) of this clause as their place of delivery. Failure to designate at least one of the ports as the point to which delivery will be made by the Contractor may render the offer nonresponsive.

Place of Delivery: _____ [Offerors insert at least one of the ports listed in paragraph (d) of this clause.]

(d) Ports of loading for evaluation of offers. Terminals to be used by the Government in evaluating offers are as follows: (For the information of the offerors, ocean and port handling charges are set forth if the terminal named is a DoD water terminal.)

Ocean and Port Handling charges for evaluation purposes are determined using data found at: <http://www.ustranscom.mil/rates/fy13Rates/>

(e) Ports of loading nominated by offeror. The ports of loading named in paragraph (d) of this clause are considered by the Government to be appropriate for this solicitation due to their compatibility with methods and facilities required to handle the cargo and types of vessels and to meet the required overseas delivery dates. Notwithstanding the foregoing, offerors may nominate additional ports of loading that the offeror considers to be more favorable to the Government. The Government may disregard such nominated ports if, after considering the quantity and nature of the supplies concerned, the requisite cargo handling capability, the available sailings on U.S.-flag vessels, and other pertinent transportation factors, it determines that use of the nominated ports is not compatible with the required overseas delivery date. United States Great Lakes ports of loading may be considered in the evaluation of offer only for those items scheduled in this provision for delivery during the ice-free or navigable period as proclaimed by the authorities of the St. Lawrence Seaway (normal period is between April 15 and November 30 annually). All ports named, including those nominated by offerors and determined to be eligible as provided in this provision, shall be considered in evaluating all offers received in order to establish the lowest laid down cost to the Government at the overseas port of discharge. All determinations shall be based on availability of ocean services by U.S.-flag vessels only. Additional U.S. port(s) of loading nominated by offeror, if any:
