SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$224,116.47 from \$2,982,025.56 to \$3,206,142.03.

SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 1002AB is added as follows:

ITEM NO	SUPPLIES/SERVICES	QUANTITY	UNIT	UNIT PRICE	AMOUNT
1002AB	Material Handling - Option Year 1 FFP	1	Job	\$10,850.22	\$10,850.22

The contractor shall provide labor hours and overtime labor hours of Material Handling support for ground vehicles, demonstrators, and other Ground Vehicle Mobility Platforms in support of TARDEC's Center for System Integration (CSI) as described in the Performance Work Statement.

This SUBCLIN 1002AB funds [REDACTED] hours of Work Directive 003 Rev 01 for the Material Handler. The loaded hourly rate for the Material Handler during Option Year 1 is [REDACTED].

[REDACTED]

The COR is responsible for certifying all invoices under this contract. DO NOT SUBMIT INVOICES TO DFAS.

Invoices: The contractor will invoice bi-weekly (every two weeks) including the number of hours worked, labor category, what requirements are being fulfilled, and the location of the work.

For invoicing instructions, see clause 52.232-4007, Wide Area Workflow.

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been added by full text:

WD 003 REV 01

Work Directive CLIN: 1001AA, 1002AA, **1002AB**, 1003AA, **10003AB**, **WD No: 003 Rev 01**
1004AA, **1004AB**, 1005AA, **1005AB**, 1006AA, **1006AB**, 1007AA,
1007AB, 1008AA, **1008AB**, and 1009AA

Contractor: Unified Business Technologies, Inc.

Contract No: W56HZV-13-C-L506

Contract Reference: C.3.1, C.3.2, C.3.3, C.3.4, C.3.5, C.3.6, C.3.7, C.3.8, C.3.9, C.3.10, and C.3.11

Program: Ground Vehicle Mobility Platforms

Completion Date: 25 February 2015

Hours needed: [REDACTED]

The contractor shall use the below listed labor categories to provide technical services for military, commercial, construction, and prototype vehicle platforms.

Logistician: [REDACTED]

In accordance with C.3.8, the contractor shall analyze requests provided by the COR IAW the Fabrication Schedule for project and building service requirements. Their analysis is for the entire life cycle of the request, consisting of fabrication, distribution, internal allocation, delivery, and final disposal of resources. The contractor shall report project plans, progress, and results to government personnel IAW CDRL A001. The contractor is responsible for the cleaning of equipment, physical structures and properly discarding the refuse in appropriate government furnished waste or recyclable containers at the end of each workday.

Material Handling Support: [REDACTED]

In accordance with C.3.9, the contractor shall provide material handling personnel to load and unload shipments from trucks and trailers and other material conveyances using fork-lifts, manual and mechanized pallet jacks, side loaders, and/or stacker cranes. The contractor shall inspect and inventory materials for serviceability and quantity. The contractor shall check, process documents, and route materials and equipment to correct locations or storage areas. The contractor shall locate, access, load, and move material for shipment and verify and prepare documents. The contractor shall pack and unpack, crate, stencil, weigh, wrap and band equipment or supplies for shipment or storage. The contractor shall be tested by the government but not trained by the government to obtain a government forklift license. The contractor shall operate warehouse tractors, forklifts, tugs and trucks. The contractor shall perform routine daily and weekly operator inspections and maintenance per manufactures specifications. The contractor shall make deliveries and pick up items and material that are off post. The material handler must have a minimum of a valid Chauffeur's License. As part of the contractor's business operation insurance coverage, at no additional cost to the government, the contractor shall carry "hired and non-owned auto liability insurance." Each material handler is required to have a company provided cellular telephone for communication purposes with CGVDI personnel. The contractor may work in hazardous materials storage areas which require the use of specialized handling and storage procedures as required by regulatory and safety requirements. The contractor shall clean and debur material raw or formed as well as clean equipment, work area, physical structures and properly discarding the refuse in appropriate government furnished waste or recyclable containers at the end of each workday.

Welder: [REDACTED]

In accordance with C.3.10, the contractor shall perform numerous types of weld joints using flat, vertical, horizontal, and overhead positions on government equipments constructed of a variety of ferrous & non ferrous materials in accordance with blueprints and sketches provided by the COR IAW the Fabrication Schedule. Tools and equipment are furnished by the government. The contractor shall use templates, jigs, blueprints, manuals and technical guides to weld, repair, modify, custom fit or fabricate metal items consisting of the repair of light or intricately made mechanical parts, which must fit in assemblies where close tolerances are required. The contractor shall lay out, position, clamp work, and select the type of rod and size of tip to accomplish weld. The contractor shall determine the heat necessary and adjust equipment accordingly. The contractor shall manually maintain proper speed, flame

motion, tip and angle, and position of the welding flame to produce desired pattern. The contractor shall clean and debur material raw or formed as well as clean equipment, work area, physical structures and properly discarding the refuse in appropriate government furnished waste or recyclable containers at the end of each workday.

Electronics Technician: [REDACTED]

In accordance with C.3.3, the contractor shall provide electronic technical services in the areas of electrical and electronic engineering technician support consisting of design, development and repair of electrical, and electronic equipment for military, commercial, construction and prototype vehicle platforms as directed by the COR IAW the Fabrication Schedule. The contractor shall provide technical services in troubleshooting and diagnosis of complex electrical and electronic problems of vehicle systems and provide solutions to remedy them.

Automotive Painter: [REDACTED]

In accordance with C.3.7, the contractor shall plan and lay out work by reading and interpreting blueprints and sketches provided by the COR IAW the Fabrication Schedule. The contractor shall clean and prepare subassemblies, consisting of military, commercial, construction and prototype vehicle platforms and their related subsystems so that specified coatings can be applied. The contractor shall apply primers, paints and coatings that are epoxy, lacquer, water borne, Chemical Agent Resistant Coating (CARC) in accordance with the supplied specifications, whether single or multi-colored or single or multi-layered. Tools and equipment are furnished by the government. The contractor shall perform a weekly inventory and fill out an inventory sheet provided by the COR where they will check the status of needed painting supplies and then notify the COR of the anticipated supplies needed for the upcoming work. The contractor shall clean and debur material raw or formed as well as clean equipment, work area, physical structures and properly discarding the refuse in appropriate government furnished waste or recyclable containers at the end of each workday.

Machinist: [REDACTED]

In accordance with C.3.4, the contractor shall read and interpret blueprints and sketches provided by the COR IAW the Fabrication Schedule. The contractor shall machine the parts specified in the blueprints and sketches using manual and Computer Numerical Controlled (CNC) tools and equipment furnished by the government. The contractor shall clean and debur material raw or formed as well as clean equipment, work area, physical structures and properly discarding the refuse in appropriate government furnished waste or recyclable containers at the end of each workday.

Sheet Metal Fabricator: [REDACTED]

In accordance with C.3.6, the contractor shall read and interpret blueprints and sketches provided by the COR IAW the Fabrication Schedule. The contractor shall plan, lay out work and determine the work procedures, machines, sequence of metal forming operations, tools, equipment, and attachments for ferrous and non-ferrous materials. The contractor shall fabricate metal parts IAW the blueprints and sketches provided by the COR using tools and equipment furnished by the government. The contractor shall clean and debur material raw or formed as well as clean equipment, work area, physical structures and properly discarding the refuse in appropriate government furnished waste or recyclable containers at the end of each workday.

Mechanical Technician: [REDACTED]

In accordance with C.3.5, the contractor shall read and interpret blueprints and sketches provided by the COR IAW the Fabrication Schedule. The contractor shall plan, lay out work and determine the work procedures. The contractor shall perform assembly, fabrication, repair, and design and development of supporting equipment, systems, and subsystems on the vehicles consisting of direct and general support (DS/GS).

Production Scheduler: [REDACTED]

In accordance with C.3.11, the contractor shall read and interpret blueprints and sketches provided by the COR IAW the Fabrication Schedule to establish production schedules. The contractor shall monitor material inventories, track

progress of production, and review factors which affect schedules. The contractor shall provide workflow, schedule, and prepare Management Documentation, Shop Management Plans IAW CDRL A002.
