The following have been modified:

ADDITIONAL DESCRIPTION

Item #1: Laboratory Density Meter DMA 4500 M, P/N: 45499

For the determination of density, specific gravity and concentration of liquids based on the Anton Paar U-tube technology. With a built-in solid state thermostat, patented reference oscillator (ThermoBalance™), automatic full range viscosity correction of the sample's viscosity influence, and the latest density meter technology providing state-of-the-art user support (FillingCheck™, U-View™).

Item #3: DMA 35 Ex Petrol Portable Density Meter, P/N: 87451
Battery-powered portable lab instrument for determination of density, specific gravity and concentration of liquids according to the Anton Paar oscillating U-tube technology. With integrated temperature compensation and RFID interface for quick sample identification. Resistant to petrochemical samples.

ATEX marking II 2 G Ex ib IIC T4.

The equipment comes with a professional installation which includes a customized set-up of the instruments and instructions on operations and maintenance.
