

ATTACHMENT 0007
Support Equipment, Tools, and Test Equipment (STTE) Requirements

The Contractor shall deliver a list of Support Equipment, Tools, and Test Equipment utilized to maintain the Heavy Crane. The STTE lists shall be delivered on an excel type spreadsheet in accordance with CDRL A016.

The list shall identify Common or Special Tools, Test, Measurement, and Diagnostic Equipment (TMDE) not contained in the following authorized U.S. Army Supply Catalogs: General Mechanics Tool Kit (GMTK), NSN 5180-01-548-7634, Standard Automotive Tool Set (SATS) Base, National Stock Number (NSN) 4910-01-490-6453, Field Maintenance Module 1 (FFM1) NSN 4910-01-501-7342, and Field Maintenance Module 2 (FFM2). The list shall provide Nomenclature, Cage Code (CAGEC), National Stock Number (NSN), if assigned, Part Number (PN), level of maintenance, and price of each item on the list.

The Contractor shall also list all Common or Special Tools, Test, Measurement, and Diagnostic Equipment (TMDE) contained in the authorized U.S. Army Supply Catalogs: listed in the above paragraph of this document. The list shall provide the tool kit NSN, tool number, Nomenclature, Cage Code (CAGEC), National Stock Number (NSN), if assigned, Part Number (PN), level of maintenance, and price of each item on the list.

Note: The SATS Base, FFM1 and FFM2 have a (Sturdy Mobile) version NSN 4910-01-531-2053. This version of the SATS is a “roll-around”, which does not include the 8X8X20 ISO shelter, generator, ECU, and trailer, but the tool load is identical. The FFM1 (Sturdy Mobile) version NSN 4910-01-531-1673; FFM2 (Sturdy Mobile) version NSN 4910-531-1674. The (Sturdy Mobile) version of the SATS will be used during Logistic Demonstration and verification. The listed set/kits outlined in this document do not constitute all the sets/kits in the Army inventory.
