

1. Is it required to deliver TPCP schedule in a Microsoft Project format?

Section L.2.6 of the solicitation permits submission of offers in any of three electronic formats: Microsoft Office, Adobe PDF (Portable Document Format), or HTML (Hypertext Markup Language).

2. Where can I get access to a HEMMT-LHS or PLS?

Based on the applicable Purchase Description (ATPD-2319D), no Government-owned property or equipment is required by a contractor in order to meet the requirements of the contract to be awarded pursuant to RFP W56HZV-11-R-0171.

3. ***ATDP 2319D 3.5.21 will change as follows:***

Through a solicitation amendment the requirement at ATPD 2319D 3.5.21 - Pump will change as follows:

FROM: The Hippo shall be equipped with a self priming pump. If the pump body includes its own reservoir, it shall be equipped with a valve to facilitate draining.

TO: The Hippo shall be equipped with a pump that can operate as required by this Purchase Description. It is desired the pump be self priming. Whether self priming or not, the priming process shall be reliable and effective under all operating conditions. If manual priming of the pump is required, it shall be easy for the operator to complete the task with little or no spillage of water. If the pump casing or reservoir retains liquid, it shall be equipped with an accessible valve to facilitate draining.
